MONDAY: Tuesday partly cloudy, scattered showers in southeast portion.
ARKANSAS AND OKLAHOMA: Partly cloudy Monday and Tuesday.
MONROE: Maximum 98; minimum 73; river 13.8.

PRICE FIVE CENTS

BRETONS DISPLAY ANTI-FRENCH MOOD WITH EXPLOSIONS

Group of Autonomists, Like Sinn Feiners of Ireland, Blamed for Blast

PRECEDES CELEBRATION OF UNION OF TWO LANDS

Statue Depicting Combining of Brittany With France in 1532 Destroyed

VANNES, France, Aug. 7 (AP)—The explosion at Rennes which destroyed the monument to Franco-Bretton union and marred Premier Herriot's celebration of the fourth centenary of the event here today was denounced by the French leader as stupid and criminal.

"It denotes in those who committed it perfect idiocy and complete debasement of soul and heart," the premier said.

RENNES, France, Aug. 7 (AP)—A small, stubborn group of Breton autonomists, clinging to their native language and customs like the Sinn Feiners of Ireland, were generally blamed today for an explosion which destroyed a great bas-relief here symbolizing the union of Brittany with France in 1532.

The explosion, preceding a celebration of the fourth centenary of the union of Vannes, in which Premier Herriot participated, disfigured one of the most picturesque central squares in the French provinces.

Two alleged sympathizers of the separatists were grilled by the police. The perpetrators of the blast were likely to risk the death penalty, since the city hall in a niche of which the monument stood was inhabited.

The municipal treasurer and the janitor were sleeping in their apartment in the city hall at the time of the explosion, but no persons were injured.

The blast, which was heard three miles around, shattered windows within a radius of 500 yards. The destruction seemed to have been wrought by a bomb placed with utmost secrecy. Police headquarters is just across the way.

The autonomists for a long time have been discontented with the fete scheduled for the fourth centenary, which Premier Herriot inaugurated today at Vannes.

Their attitude was that the Bretons should not invite French officials to celebrate the Duchy's surrender of its sovereignty. Many decided to boycott the ceremonies.

A similar boycotting marked the inauguration of the destroyed monument itself in 1911. Local patriots objected to its depiction of Anne of Brittany, successively the wife of King Charles VIII and Louis XII, knowing and offering her capital of Brittany, known to artists throughout the world as the "Venice of France" because of its canals.

IT IS A PLEASURE to drive through 290 miles of California, with William Packer, manager of the Chevrolet company in a region that reaches from all Alaska in the north to the tip end of Mexican California in the south, and east to Salt Lake City.

BELIEVE NATCHEZ MURDER IS SOLVED

Fingerprints Reported to Bear 'Marked Resemblance' to Dana's

NATCHEZ, Miss., Aug. 7 (AP)—Sheriff Clarence P. Roberts tonight announced that J. E. Chancellor, Jackson, Miss., bertillon expert, had tentatively identified finger prints of R. H. "Dick" Dana, 61-year-old eccentric as corresponding with prints taken from articles in the home of Jane Sargent Merrill, a wealthy 68-year-old Natchez spinster, whose bullet-riddled body was found in a thicket near her colonial home here Thursday night.

Sheriff Roberts' announcement followed a long distance telephone conversation with Chancellor in which he was informed that finger prints taken from a shade of an oil lamp, which sat on a table in the murder room of the Merrill home and those found on a push-bar of a door leading from the dining room of the Merrill house, bore a "marked resemblance" to Dana's.

Their attitude was that the Bretons should not invite French officials to celebrate the Duchy's surrender of its sovereignty. Many decided to boycott the ceremonies.

A similar boycotting marked the inauguration of the destroyed monument itself in 1911. Local patriots objected to its depiction of Anne of Brittany, successively the wife of King Charles VIII and Louis XII, knowing and offering her capital of Brittany, known to artists throughout the world as the "Venice of France" because of its canals.

MISSISSIPPI'S RELIEF PROGRAM SCHEDULED TO BE OPENED TODAY

(Continued on Third Page.)

JACKSON, MISS., Aug. 7 (AP)—Governor Mike Conner will formally launch his congressional relief program for Mississippi at an organization meeting of his advisory committee at the state Capitol Monday morning.

The injured were:

William Quaid, 55, fracture of both legs, condition critical.

Charles Holly, 66, lacerations of the face and head.

Cody Morris, 30, hand and shoulder injuries.

Miss Violet Hingle, 18, lacerations and bruises.

Joe T. Lewis, leg crushed, condition critical.

All the injured are from New Orleans with the exception of Miss Hingle, of Point-A-La-Hache, La.

Tons of concrete and steel caught the passersby without warning. Three hours after the crash, police, aided by firemen and volunteer workers, had not determined whether all the victims had been recovered.

YOUNG AVIATRIX IS KILLED WHEN HER PLANE CRASHES

(Continued on Third Page.)

SPRINGHILL, Nova Scotia, Aug. 7 (AP)—Marjorie Horton, 19-year-old Springhill girl, was killed instantly today when a plane piloted by Tony Carr of St. John crashed at North Wallace near here.

The plane burst into flames. Carr was burned slightly when he pulled the girl's body out of it, but was not seriously hurt.

They were starting to return to Springhill when, shortly after the takeoff, the engine stopped. The plane took a nose-dive and went into a

BRETONS DISPLAY ANTI-FRENCH MOOD WITH EXPLOSIONS

Group of Autonomists, Like Sinn Feiners of Ireland, Blamed for Blast

PRECEDES CELEBRATION OF UNION OF TWO LANDS

Statue Depicting Combining of Brittany With France in 1532 Destroyed

VANNES, France, Aug. 7 (AP)—The explosion at Rennes which destroyed the monument to Franco-Bretton union and marred Premier Herriot's celebration of the fourth centenary of the event here today was denounced by the French leader as stupid and criminal.

"It denotes in those who committed it perfect idiocy and complete debasement of soul and heart," the premier said.

RENNES, France, Aug. 7 (AP)—A small, stubborn group of Breton autonomists, clinging to their native language and customs like the Sinn Feiners of Ireland, were generally blamed today for an explosion which destroyed a great bas-relief here symbolizing the union of Brittany with France in 1532.

The explosion, preceding a celebration of the fourth centenary of the union of Vannes, in which Premier Herriot participated, disfigured one of the most picturesque central squares in the French provinces.

Two alleged sympathizers of the separatists were grilled by the police. The perpetrators of the blast were likely to risk the death penalty, since the city hall in a niche of which the monument stood was inhabited.

The municipal treasurer and the janitor were sleeping in their apartment in the city hall at the time of the explosion, but no persons were injured.

The blast, which was heard three miles around, shattered windows within a radius of 500 yards. The destruction seemed to have been wrought by a bomb placed with utmost secrecy. Police headquarters is just across the way.

The autonomists for a long time have been discontented with the fêtes scheduled for the fourth centenary, which Premier Herriot inaugurated today at Vannes.

Their attitude was that the Bretons should not invite French officials to celebrate the Duchy's surrender of its sovereignty. Many decided to boycott the ceremonies.

A similar boycotting marked the inauguration of the destroyed monument itself in 1911. Local patriots objected to its depiction of Anne of Brittany, successively the wife of King Charles VIII and Louis XII, kneeling and offering her crown to France.

Rennes, old capital of Brittany, is known to arists throughout the world as the "Venice of France" because of its canals.

AT LEAST ONE KILLED, MANY HURT AS SHED COLLAPSES, ORLEANS

NEW ORLEANS, Aug. 7 (AP)—One man is known to have been killed and several others injured, five seriously, when they were trapped under the debris of a 90-foot suspended sidewalk shed which collapsed on Canal street here late today.

The only person known to have been killed was T. Moore, 65, of New Orleans.

The injured were:

William Quail, 55, fracture of both legs, condition critical.

Charles Holly, 66, lacerations of the face and head.

Cody Morris, 30, hand and shoulder injuries.

Miss Violet Hingle, 18, lacerations and bruises.

Joe T. Lewis, leg crushed, condition critical.

All the injured are from New Orleans with the exception of Miss Hingle of Point-A-La-Hache, La.

Tons of concrete and steel caught the passersby without warning. Three hours after the crash police, aided by firemen and volunteer workers, had not determined whether all the victims had been recovered.

YOUNG AVIATRIX IS KILLED WHEN HER PLANE CRASHES

SPRINGHILL, Nova Scotia, Aug. 7 (AP)—Marjorie Horton, 19-year-old Springhill girl, was killed instantly today when a plane piloted by Tom Carr of St. John crashed at North Wallace near here.

The plane burst into flames. Carr was burned slightly when he pulled the girl's body out of it, but was not seriously hurt.

They were starting to return to Springhill when, shortly after the takeoff, the engine stopped. The plane took a nose-dive and went into a spin.

WILL RETURN TONIGHT

ROOSEVELT WILL HAVE FULL SWAY ON WALKER CASE

New York Constitution Gives Governor Power to Remove City's Mayor

HE MAY CALL WITNESSES AND DETERMINE ARGUMENT

Jimmy's Hearing Has Been Set for Thursday But Principals Are Silent

HYDE PARK, N. Y., Aug. 7 (AP)—When Mayor James J. Walker of New York faces Tammany's "e. Samuel Seabury, before Governor Roosevelt in Albany Thursday, the proceedings in the effort to oust the mayor will be wholly in the hands of the governor, who may conduct the hearing any way he desires.

An investigation of the law under which a New York governor sits on the fitness of a public official shows he may receive or reject arguments and hear or refuse to hear witnesses. He may on his own initiative call in witnesses whom neither the complainant nor the defendant have sponsored.

The New York constitution says the governor may remove a county official after a hearing. A special provision of the New York city charter brings the mayor and the commissioners of police under the law.

The governor today had not heard from Mayor Walker, Seabury, who prepared the case against the mayor, or others who had interested themselves in the ouster move. He announced yesterday his decision to hold a public hearing next Thursday.

Mr. Roosevelt's luncheon guests included J. Mayhew Wright of Westchester county, former assistant secretary of war. Wright is a republican.

Tomorrow morning Mr. Roosevelt will have breakfast with United States Senator Robert J. Bulkley of Ohio. Final plans will be made for the governor's speaking engagement at Columbus, Ohio, on August 20.

The Walker hearing that likely will have an important influence on Roosevelt's campaign for the presidency, will end the argumentative stage of the Tammany issue which has dogged Mr. Roosevelt's fortunes since he became a possible nominee.

If the governor removes Walker he probably will make votes in the west and south, where Tammany is unpopular, and lose them in New York city and other urban centers where the mayor is popular. Exonerating Walker would have the reverse effect.

TEXAN DRIVES HIS CAR INTO PORCH, AND THEN EMPTIES GUN IN AIR

(Continued on Third Page)

BELIEVE NATCHEZ MURDER IS SOLVED

Fingerprints Reported to Bear 'Marked Resemblance' to Dana's

NATCHEZ, Miss., Aug. 7 (AP)—Sheriff Clarence P. Roberts tonight announced that J. E. Chancellor, Jackson, Miss., belligerent expert, had tentatively identified finger prints of R. H. "Dick" Dana, 61-year-old eccentric as corresponding with prints taken from articles in the home of Jane Sargent Merrill, wealthy 68-year-old Natchez spinster, whose bullet-riddled body was found in a thicket near her colonial home here Thursday night.

Sheriff Roberts' announcement followed a long distance telephone conversation with Chancellor in which he was informed that finger prints taken from a shade of an oil lamp, which sat on a table in the murder-room of the Merrill home and those found on a push-bar of a door leading from the dining room of the Merrill house, bore a "marked resemblance" to Dana's.

Sheriff Roberts said Chancellor's formal report would be filed tomorrow afternoon and that he would withhold further statements until that time.

Dana and his housekeeper, Miss Octavia Dockery, are being held incommunicado in the Adams county jail.

Constant questioning of the pair has produced nothing but steadfast denial of any connection with the brutal crime which shocked this community and resulted in the most extensive police investigation.

MISSISSIPPI'S RELIEF PROGRAM SCHEDULED TO BE OPENED TODAY

JACKSON, Miss., Aug. 7 (AP)—Governor Mike Conner will formally launch his congressional relief program for Mississippi at an organization meeting of his advisory committee at the state capitol Monday morning.

A representative of the Reconstruction Finance corporation will come to Jackson to advise with the committee and cooperate toward establishing the program, the governor has been advised.

The committee will number about 25 members, the governor had not decided upon other members than the 12 given out Friday night.

The nucleus of 12 is formed from the heads of various state associations and groups of activities.

U. D. C. Begins Plans

For Annual Convention

Preparations for the general convention of the United Daughters of the Confederacy will get under way immediately following the mid-summer lull in club activities, according to word received during the week from Mrs. L. U. Babin of Baton Rouge, corresponding secretary-general of the organization. The convention this year will be held in Memphis, Tenn., some time in November, the exact date to be selected by the hostess city.

This marks the first year that the daughters have met in Memphis, although it was in Tennessee that meeting being in Nashville, September 10, 1894. The Peabody hotel will be convention headquarters.

An important meeting of the executive committee of the U. D. C. was held during the reunion of Confederate veterans in Richmond, Va., Mrs. Babin writes. The newly formed Massachusetts division, which includes chapters at Boston and Cambridge, was formally welcomed into the organization. Compilation of U. D. C. records has been completed by Mrs. J. P. Higgins, St. Louis; Mrs. W. E. Byrne of Charleston, W. Va., president-general reported.

The final payment on Stratford, the birthplace of General Robert E. Lee, is to be made by the U. D. C. this year. Mrs. Babin says, and every effort is being made to advance the cause of Sidney Lanier for the Hall of Fame. Last year the name of Matthew Fontaine Maury was accepted for the Hall of Fame on request of the U. D. C.

All interested in essay prizes are urged to communicate with Mrs. John H. Anderson, historian-general, whose address is 707 West Morgan street, Raleigh, N. C. Prizes up to \$250 are offered in various essay contests, a few of which are open to the general public, while the remainder are limited to members of the U. D. C. Mrs. Babin explains.

A recent gift of \$10,000 made by the U. D. C. made possible the reconditioning of the Lee statue at the chapel of Washington and Lee university, and the building of new steps at the chapel, Mrs. Babin says. Arlington house has been restored by the old regular ward leaders. At this caucus Congressman Overton made a speech, referring to the home loan bank bill, in which he said:

"During the last days of the congressional session, when this bill came up for passage, my opponent was not there. He was in Louisiana, trying to organize his campaign, and he is still trying to organize his campaign."

The news item further stated that the speaker, Mr. Overton, "took credit for having the act amended so that the success of a business depends upon the whole organization working harmoniously together to a common end. But we fail, curiously enough, to appreciate the value of teamwork in family life."

We all know the value of teamwork. We know that the winning of a game depends not so much on the brilliancy of any one player as upon the teamwork of all of the players. We know that the success of a business depends upon the whole organization working harmoniously together to a common end. But we fail, curiously enough, to appreciate the value of teamwork in family life.

Half the homes you go into are battlegrounds in which a perpetual civil warfare goes on. The husband and wife are totally at variance with each other, with different aims, aspirations and desires, and each apparently bent on thwarting the other. There is no working for the common good. No merging of tastes and interests. No realization that after all a husband and wife are one, and that they must stand or fall together.

And the terrible thing about this lack of teamwork is that it is so fatally easy for either a husband or wife to nullify all of the other's efforts and that each is so helpless to protect himself or herself against the other.

How often, for instance, do we see a woman stand in the way of her husband's success. A poor but ambitious and energetic young man has got his foot on the first round of the ladder. He has shown that he is a go-getter and every one prophesies great things for him, but he marries and that is the end of him. He just fizzles out into nothingness.

To look a cold world bravely in the face,

To cheer for those who pass me in the race,

To bear my burdens bravely, unafraid,

To lend a hand to those that need my aid,

To measure what I am by what I give—

God give me strength that I may rightly live.

ARTHUR GUITERMAN.

Louisiana Women's Clubs

Begin Plans for the Winter

Club women of the state are beginning to awaken from their summer lethargy this month and preparing for their winter's work, committees are meeting and plans are being outlined.

The most important event of this week in Louisiana club circles will be the annual short course for home demonstration clubs which opens in Baton Rouge today. A large number of women from all over the state will take advantage of this course, which will continue through Thursday. The programs for the rural club work for the coming year will be worked out

this week in Baton Rouge. The state home demonstration council will hold its annual meeting in connection with this short course.

Business women of Louisiana are giving all their thoughts to the southeast regional convention which will be held in Asheville, N. C., the latter part of this month. The Louisiana Federation of Business and Professional Women's Clubs will be hostess at a luncheon which promises to be one of the highlights of the convention.

Plans for fall are already engaging the attention of members of the Louisiana Federation of Women's Clubs and during the summer vacation clubs are appointing chairmen and preparing yearbooks in preparation for an unusually busy fall. Mrs. Edward Pillsbury, state president, will be one of the speakers at the Baton Rouge short course and as the federation is particularly interested just now in rural extension her address is being awaited with much interest.

Parent-teacher associations in Louisiana as well as elsewhere in the country are much concerned with school affairs just now and matters of budgets are holding parents' attention even when their school organizations have discontinued activities.

Plans are going forward for the semi-annual meeting of the board of managers which will be held in Chicago during September and Mrs. L. A. Matthes of Shreveport, state president, will attend.

Daughters of the Confederacy and of the American Revolution are busy with the appointment of chairmen and the shaping of programs for the year. Active work is planned by these groups and new chairmen are busy acquainting themselves with their duties in order that the organization work can get under way with the beginning of fall.

Other groups of Louisiana club women are also beginning to formulate plans for the fall, and another few weeks will find the club life of the women of this state in full swing.

U. D. C. Begins Plans

For Annual Convention

Preparations for the general convention of the United Daughters of the Confederacy will get under way immediately following the mid-summer lull in club activities, according to word received during the week from Mrs. L. U. Babin of Baton Rouge, corresponding secretary-general of the organization. The convention this year will be held in Memphis, Tenn., some time in November, the exact date to be selected by the hostess city.

This marks the first year that the daughters have met in Memphis, although it was in Tennessee that meeting being in Nashville, September 10, 1894. The Peabody hotel will be convention headquarters.

An important meeting of the executive committee of the U. D. C. was held during the reunion of Confederate veterans in Richmond, Va., Mrs. Babin writes. The newly formed Massachusetts division, which includes chapters at Boston and Cambridge, was formally welcomed into the organization. Compilation of U. D. C. records has been completed by Mrs. J. P. Higgins, St. Louis; Mrs. W. E. Byrne of Charleston, W. Va., president-general reported.

The final payment on Stratford, the birthplace of General Robert E. Lee, is to be made by the U. D. C. this year. Mrs. Babin says, and every effort is being made to advance the cause of Sidney Lanier for the Hall of Fame. Last year the name of Matthew Fontaine Maury was accepted for the Hall of Fame on request of the U. D. C.

All interested in essay prizes are urged to communicate with Mrs. John H. Anderson, historian-general, whose address is 707 West Morgan street, Raleigh, N. C. Prizes up to \$250 are offered in various essay contests, a few of which are open to the general public, while the remainder are limited to members of the U. D. C. Mrs. Babin explains.

A recent gift of \$10,000 made by the U. D. C. made possible the reconditioning of the Lee statue at the chapel of Washington and Lee university, and the building of new steps at the chapel, Mrs. Babin says. Arlington house has been restored by the old regular ward leaders. At this caucus Congressman Overton made a speech, referring to the home loan bank bill, in which he said:

"During the last days of the congressional session, when this bill came up for passage, my opponent was not there. He was in Louisiana, trying to organize his campaign, and he is still trying to organize his campaign."

The news item further stated that the speaker, Mr. Overton, "took credit for having the act amended so that the success of a business depends upon the whole organization working harmoniously together to a common end. But we fail, curiously enough, to appreciate the value of teamwork in family life."

We all know the value of teamwork. We know that the winning of a game depends not so much on the brilliancy of any one player as upon the teamwork of all of the players. We know that the success of a business depends upon the whole organization working harmoniously together to a common end. But we fail, curiously enough, to appreciate the value of teamwork in family life.

Half the homes you go into are battlegrounds in which a perpetual civil warfare goes on. The husband and wife are totally at variance with each other, with different aims, aspirations and desires, and each apparently bent on thwarting the other. There is no working for the common good. No merging of tastes and interests. No realization that after all a husband and wife are one, and that they must stand or fall together.

And the terrible thing about this lack of teamwork is that it is so fatally easy for either a husband or wife to nullify all of the other's efforts and that each is so helpless to protect himself or herself against the other.

How often, for instance, do we see a woman stand in the way of her husband's success. A poor but ambitious and energetic young man has got his foot on the first round of the ladder. He has shown that he is a go-getter and every one prophesies great things for him, but he marries and that is the end of him. He just fizzles out into nothingness.

To look a cold world bravely in the face,

To cheer for those who pass me in the race,

To bear my burdens bravely, unafraid,

To lend a hand to those that need my aid,

To measure what I am by what I give—

God give me strength that I may rightly live.

CAPITOL

Beautiful, blonde Noel Francis at the Capitol theater today as Tom Mix's leading lady of Universal's "Pal, the King," is one of Ziegfeld's most pulchritudinous beauties. "Glorified" by the celebrated New York impresario soon after the little Temple, Texas, girl arrived, wide-eyed, in the big city, she ascended rapidly to recognition on the stage and screen.

Miss Francis was educated in the elementary schools of Dallas, at Southern Methodist university and Columbia, but her post-graduate course at the New York college was interrupted almost at its beginning when Ziegfeld and the footlights refused their summons.

Show has appeared in "Rio Rita," "Show Girl," "Resurrection," "Movie-tom Follies," "Rough Romance" and other hits that have stamped her a distinct favorite with moviegoers.

Miss Francis has blue eyes and strikingly blonde hair. She is well known for her excellent singing voice, and speaks with an attractive, southern drawl.

PARAMOUNT

Helene Vinson, the latest addition to Warner Bros.' list of featured players, makes her screen debut in "Hell Drivers," drama of naval aviation now playing at the Strand theater, West Monroe, she participated in sensational diving maneuvers. In these dives, the airplanes reached a speed of 350 miles an hour. And both actors got an enormous "kick" out of it. A cast of unusual importance supports the co-stars of "Hell Drivers," including Conrad Nagel, Dorothy Jordan, Marjorie Rambeau, Marie Prevost and Cliff Edwards.

Promised to carry out the late Mr. Aswell's policies, and I asked him whether he was wet or dry; to which Mr. Overton replied, taking offense at my inquiry, but not answering a single question. My letter to him and his reply were published in the New Orleans newspapers on March 30, 1932. The reaction in Louisiana, especially in New Orleans, and the protests coming to him were such that soon thereafter Mr. Overton voted for the beer bill.

U. D. C. Begins Plans For Annual Convention

Preparations for the general convention of the United Daughters of the Confederacy will get under way immediately following the mid-summer lull in club activities, according to word received during the week from Mrs. L. U. Babin of Baton Rouge, corresponding secretary-general of the organization. The convention this year will be held in Memphis, Tenn., some time in November, the exact date to be selected by the hostess city.

This marks the first year that the daughters have met in Memphis, although it was in Tennessee that meeting being in Nashville, September 10, 1894. The Peabody hotel will be convention headquarters.

An important meeting of the executive committee of the U. D. C. was held during the reunion of Confederate veterans in Richmond, Va., Mrs. Babin writes. The newly formed Massachusetts division, which includes chapters at Boston and Cambridge, was formally welcomed into the organization. Compilation of U. D. C. records has been completed by Mrs. J. P. Higgins, St. Louis; Mrs. W. E. R. Byrne of Charleston, W. Va., president-general, reported.

Nor can any man make a happy home if he provides his family with a mansion to live in and French finery to wear and imported cars to ride in and if he works himself to death to gratify his wife's and children's every wish if he is married to a woman who is peevish and fretful and whining and complaining and nagging and who is always picking on him and the children and wondering why he isn't as handsome as Ramon Novarro and as romantic as Clark Gable and doesn't make as much money as Mr. Ford.

But when a husband and wife work together to make a happy home; when they treat each other with affection and consideration and tenderness; when they are more tactful in dealing with each other, then they would be with strangers; when they give the very best that is in them to each other then they establish the sort of home that is a paradise on earth.

The final payment on Stratford, the birthplace of General Robert E. Lee, is to be made by the U. D. C. this year, Mrs. Babin says, and every effort is being made to advance the name of Sidney Lanier for the Hall of Fame. Last year the name of Matthew Fontaine Maury was accepted for the Hall of Fame on request of the U. D. C.

All interested in essay prizes are urged to communicate with Mrs. John H. Anderson, historian-general, whose address is 707 West Morgan street, Raleigh, N. C. Prizes up to \$250 are offered in various essay contests, a few of which are open to the general public, while the remainder are limited to members of the U. D. C., Mrs. Babin explains.

A recent gift of \$10,000 made by the U. D. C. made possible the reconditioning of the Lee statue at the chapel of Washington and Lee university, and the building of new steps at the chapel, Mrs. Babin says. Arlington house has been restored by congress by request of the U. D. C. which was instrumental also in having the name of Jefferson Davis, secretary of war of the United States, replaced by congress on the Cabin John bridge just outside of Washington.

Today

This day I pray, God give me strength anew,
To do the task I do not want to do;
To yield obedience, not asking why;
To love and own the truth and scorn the lie.
To look a cold world bravely in the face,
To cheer for those who pass me in the race,
To bear my burdens bravely, unafraid,
To lend a hand to those that need my aid,
To measure what I am by what I give—
God give me strength that I may rightly live.

Louisiana Women's Clubs Begin Plans for the Winter

Club women of the state are beginning to awaken from their summer lethargy this month and preparing for their winter's work, committees are meeting and plans are being outlined.

The most important event of this week in Louisiana club circles will be the annual short course for home demonstration clubs which opens in Baton Rouge today. A large number of women from all over the state will take advantage of this course, which will continue through Thursday. The programs for the rural club work for the coming year will be worked out

DIXIE DUGAN

DRIFTING IDLY ALONG THE EDGE OF THE DENSE AND IMPENETRABLE FOREST THAT SURROUNDS LONELY LAKE. DIXIE AND MICKEY COME SUDDENLY UPON A HANDSOME STRANGER-

McNaught Syndicate Inc., N.Y.

Dorothy Dix's Letter Box

The most important thing in domestic life is cooperation between husband and wife. Making a success of marriage is a two-handed job that requires the united efforts of both a man and woman to pull off, and neither one can accomplish it working alone.

No woman can make a happy home, though she grins like a Cheshire cat and cooks like an angel and is meeker and more humble than Patience Griselda, if the man of the house is a grouch or a sulker or a knocker or one who passes into the silence when anything displeases him and if the mere sound of his key in the lock sends the temperature down to zero and hushes the children's prattle and makes the dog beat it for the cellar.

Whenever you hear parents complain that they have no control over their children and can do nothing with their wild sons and daughters, you may be sure that it is because they never cooperated with each other in bringing them up, but fought over everything from the time of putting the baby to bed to buying them a sport car and sending them to college.

Unhappy homes. Lack of success in business. Divorces. Wayward children — these are the price of the lack of teamwork between husbands and wives. For a house divided against itself shall fall.

DOROTHY DIX.

'LONG'S DICTATOR' REGIME IS RAPPED

(Continued from First Page)

endorsement of Overton and others upon the Long-Walmsley ticket by the old regular ward leaders. At this caucus Overton made a speech, referring to the home loan bank bill, in which he said:

"During the last days of the congressional session, when this bill came up for passage, my opponent was not there. He was in Louisiana, trying to organize his campaign, and he is still trying to organize his campaign."

"The news item further stated that the speaker, Mr. Overton, 'took credit for having the act amended so that the Louisiana Homestead associations could participate in the measure.'

"The insinuation that I left Washington before all legislation affecting Louisiana and the nation was disposed of, is unfair. When I left Washington the home loan bill had been passed by the house; had also been passed by the senate with an amendment which did not affect the home loan banks but dealt with the Borah amendment which was the Glass bill as it was amended; so that it is not true that when the act was passed I was in Louisiana. I had been urged to come to Louisiana in my political interest, but I refused to leave Washington until everything in which my people were concerned had been disposed of."

"Mr. Overton's reference to having the bill amended so that the Louisiana Homestead associations could participate in the measure was news to me, because no amendment could be proposed to a conference report. I had the Congressional Record examined and was told Mr. Overton did refer, approvingly, to the amendment which the senate had made to the house bill."

"My activities in connection with the Louisiana Homestead associations are well known to the people interested in homestead associations. I am satisfied to let those interested pass judgment in this matter."

"Another matter touched upon by Mr. Overton in his speech referred to his attitude on prohibition, and he infers that he has always been for repeal of the 18th amendment. This also was news to me, because I had understood that Mr. Overton, until recently, had been dry. The fact is that the referendum on the 18th amendment, introduced in congress, had been referred to a committee, and the committee, having neglected to report to the house, a motion was made to discharge the committee, so that the house might consider the referendum. On this question Mr. Overton voted against discharging the committee. It will be readily understood that his vote was against discharging the committee so as to permit the members of congress to debate and act on the bill which referred the 18th amendment to a vote of the people. That does not look like the vote of a man who was opposed to the 18th amendment."

"Whereupon, I immediately wrote a letter to Mr. Overton charging that my recollection was that he had publicly stated he was dry, and calling his attention to the fact that the newspapers in New Orleans quoted Senator Long as saying Mr. Overton had voted against the motion because he had

promised to carry out the late Mr. Aswell's policies, and I asked him to state whether he was wet or dry; to which Mr. Overton replied, taking offense at my inquiry, but not answering a single question. My letter to him and his reply were published in the New Orleans newspapers on March 30, 1932. The reaction in Louisiana, and especially in New Orleans, and the protests coming to him were such that soon thereafter Mr. Overton voted for the beer bill."

"Mr. Overton, and his supporters here, recently are attempting to make him a dripping wet. I have the distinction of being the first senator who was elected on a wet platform after the adoption of the 18th amendment. I was the first in the United States senate, elected after the adoption of the 18th amendment, to advocate modification and referring the amendment back to the people. I also was the first to begin the fight in accordance with my pledges to the people in 1920. In 1921 I offered a referendum, which is to be found in the Congressional Record, and is almost identical with the plank of the national platform adopted at Chicago by the national democratic convention this year."

MRS. BAXTER TAKEN HOME

Mrs. R. M. Baxter, wife of Rev. Baxter, of 3401 Richmond street, who has been critically ill at St. Francis sanitarium following the birth of twin daughters, was able to be taken home yesterday. Hospital attaches said her recovery was considered remarkable.

She has appeared in "Rio Rita," "Show Girl," "Resurrection," "Movie Folies," "Rough Romance" and a host of other hits that have stamped her as a distinct favorite with moviegoers.

Miss Francis has blue eyes and strikingly blonde hair. She is well known for her excellent singing voice, and speaks with an attractive, earthy drawl.

PARISIENNE

Helen Vinson, the latest addition to Warner Bros.' list of featured players, who makes her screen debut in "Warner Bros.' Jewel Robbery," at the Paramount today, won several trophies for expert archery while she

was a student at the University of Texas. She is besides an expert swimmer, horsewoman and fencer. The story is an adaptation of the play by Ladislaus Fodor in which Mary Ellis and Basil Sydney appeared on Broadway this season. Miss Vinson was most recently Charles Ellis Laughlin's leading woman in "The Fatal Alibi." Earlier in the season she was seen in "Berlin" and previous to that she played opposite Philip Merivale in "Death Takes a Holiday." The complete cast of "Jewel Robbery," which co-stars William Powell and Kay Francis, includes Hardie Albright, Henry Kolker, Allan Mowbray, Lee Kohlmar, Lawrence Grant, Charles Coleman, Spencer Charters, Andre Luquet, Robert Greig and Ruth Donnelly.

STRAND

West Monroe

Wallace Beery and Clark Gable now hold records as having traveled faster than any other actors alive in "Hell Divers" drama of naval aviation now playing at the Strand theater, West Monroe, they participated in sensational diving maneuvers. In these dives, the airplanes reached a speed of 350 miles an hour. And both actors got an enormous "kick" out of it. A cast of unusual importance supports the co-stars of "Hell Divers," including Conrad Nagel, Dorothy Jordan, Marjorie Rambeau, Marie Prevost and Cliff Edwards.

While swimming and slithering about in the waters of Thompson's creek our observations did not cease. Several flocks of least terns, the long-winged divers of the sea, passed over us, slowly pursuing their course down the stream. The passing of these little terns southward, following by day the direction set by the winding waterway, marked another evidence of the diurnal migration that has already begun. A month later hundreds of the same birds as well as thousands of other species will be making their way over the

ported to view with dissatisfaction the present trend of diplomacy in connection with the Chaco question, including Paraguay's unexpected acceptance of the Pan-American proposal for arbitration of the differences on the basis of the positions held by the armed forces of the two nations in the Chaco territory on June 1.

This group was represented as believing that even had Bolivia accepted the proposal unreservedly, it would merely mean commencing again protracted negotiations without prospect of a definite result.

Some leaders in this group had expected the Paraguayan reply to include certain reservations, which may have been erased as a result of President Jose Guggiani's conference with the United States minister shortly before the cabinet finally approved Paraguay's note.

TORCH SINGER TO SURRENDER TODAY

(Continued from First Page)

satisfied with Holman's promise to deliver his daughter into custody without further delay.

Defense attorneys appeared optimistic over the prospect of securing the privilege of bail for their client, especially since her co-defendant, Albie Walker, 19-year-old chum of young Reynolds, was released in \$25,000 bond yesterday after habeas corpus proceedings at which the state announced did not have evidence to support a first degree murder charge against him.

Just where Libby's effort to obtain bail would take place remained undetermined today.

Graves and Polkoff said they were prepared to file a petition for a writ of habeas corpus as soon as she is in custody, pointing out that under the law they cannot move while a defendant is still at large.

They said they did not know what judge would be asked to order the hearing. Judge A. M. Stack, who presided in superior court here last week and allowed Walker's release, will be presiding at a term of court in Wentworth, seat of Rockingham county, about 50 miles from here.

Solicitor Carlisle Higgins will also be at Wentworth to prosecute the Rockingham docket. It was Higgins who announced, after a conference with Sheriff Scott, that the available evidence was insufficient to sustain a non-bailable charge, as first degree murder ordinarily is in North Carolina.

At that time Higgins said his failure to resist bail for Walker could not be taken as any intimation of his probable attitude toward a similar petition from the widow.

Libby's attorneys pointed out they could ask for a habeas corpus writ from any superior court judge or any member of the supreme court bench.

No superior judge is in Winston-Salem at this time, but Judge Thomas Shaw and Judge Michael Schenck reside at Greensboro, about 50 miles from here, and it was regarded as within the realm of possibility that the petition might be filed before one of them.

The state law allows the petition to be filed before any qualified judge, but does not require him to hear the action. In other words, one judge may order a hearing to be held before another judge.

Mrs. Reynold's attorneys said they desired to hold the hearing as soon as possible because of the client's condition. They described her as still suffering from the shock of her husband's death as well as being on the road to motherhood.

Reynold's death early on the morning of July 6 came a few hours after the breaking up of a birthday party at Reynolda, the family estate, at which witnesses said corn whisky and beer were served.

Coroner W. N. Dalton, after an inquiry, announced he had recorded a finding of suicide, but Sheriff Scott declared he was not satisfied and began an investigation that culminated in the holding of a formal inquest.

After examining Libby and Walker twice, and other witnesses, including guests at the party, the coroner's jury held that Reynolds came to his death from a gunshot wound inflicted by "a person or persons unknown."

The next day, Libby, sobbing and apparently almost prostrated, left for her girlhood home in Cincinnati. She went into seclusion in the suburban home of a sister, Mrs. Myron Kahn.

About two weeks ago, Sheriff Scott said he was informed the singer was "missing" from the Kahn home.

When she and Walker were indicted on a first degree murder charge Thursday, the officer immediately began an attempt to locate her and take her in custody, but his efforts were in vain.

Holman came to Winston-Salem with the hope of arranging for bail without the necessity of her being arrested, but found such a course was impossible, under the laws of the state. He engaged Polkoff and Graves, who shortly announced Libby would return within a few days, and face the charge pending against her.

BELIEVE NATCHEZ MURDER IS SOLVED

(Continued from First Page)

COTTON IS ACTIVE DURING PAST WEEK

Price Fluctuations Are Narrow, Owing to Conflicting Influences

(Continued from First Page)

Sheriff Roberts refused to elaborate on his conversation with the finger print expert, intimating he would issue a formal statement after receiving Chancellor's report tomorrow.

Dana and Miss Dockery, who reside in a dilapidated anti bellum mansion situated 500 yards from the Merrill home, were the first to be arrested for questioning in connection with the murder.

Officers asserted ill feeling long has existed between the couple and Miss Merrill. No formal charges have been filed, both being held for "investigation."

Dana and Miss Dockery also have claims to ancestral distinction. Miss Dockery is the daughter of Brig. Gen. T. P. Dockery of the army of the Confederate states. She is 60 years old and has acted as Dana's housekeeper.

Dana, son of Charles Backus Dana, Episcopalian minister here from 1866-73, also claims to be related to Charles Anderson Dana, former publisher of the New York Sun, and Charles Dana Gibson, the artist. He told officers he also has "rich relatives residing in New York and Brooklyn."

Brought from his cell in the county jail this afternoon, it was difficult to picture him as leaders of the Natchez younger social set 40 years ago.

Wearing a heavy beard, his hair uncropped and gartered in dirty overalls, Dana told newspaper men of his early life here. He attended Chamberlain Hunt academy at Port Gibson, Miss., and later entered Vanderbilt university, Nashville, where he remained two years.

Also for two years he studied music in New York and bore the reputation of an accomplished pianist.

Soon after returning to Natchez he went into virtual seclusion at "Glenwood," where he has remained for the past 40 years.

He was known to his neighbors as "Wild Man" because of frequent spells when he would quit his home and roam in nearby woods clothed only in tattered sacks.

He told officers that during all the years he has lived as Miss Merrill's closest neighbor, that he had never been in her home and had "not exchanged 50 words with her within the last 15 years."

FIVE PERSONS INJURED

MERIDIAN, Miss., Aug. 7 (P)—Five persons were injured near here yesterday when an automobile overturned in a ditch. Mr. and Mrs. E. C. Hale and their two children, Reese and Junior, and Mrs. Wylie Kilgore, of Birmingham, were hurt. Either Hale, the driver, escaped unhurt. He said he lost control of the car at the time of a blowout.

GALVESTON, Texas, Aug. 7 (P)—Billie Elwood of San Antonio, 18, and just out of high school, was chosen "Miss Personality" in the Galveston pageant here tonight. Miss Oak Cliff, Mary Ruth Whatley, was winner of second prize and Miss New Orleans, Alberta Cooley, was third.

TAKEN TO CLINIC

Miss Ruth Webb, daughter of Capt. R. P. Webb, head of the Monroe division of the state conservation department, was taken to the Clinic in an ambulance last night for treatment of what members of the family said was a heart attack. Her condition was not considered serious.

MOTORSHIP REPORTED SUNK IN 15 FEET OF WATER ON GULF COAST

NEW ORLEANS, Aug. 7 (P)—E. A. Ratelle, general manager of the Coast Transportation company, Inc., reported here today that he had received information that the company's motorship Althia sank in 15 feet of water three miles from Pensacola, Miss., today. The vessel carried a cargo valued at \$20,000.

The entire crew of seven men, all of Mobile, Ala., was reported to have been saved by a coast guard boat.

Ratelle said the information he received indicated the vessel struck some kind of submerged object and sprang a leak.

The Althia is 120 feet long, 32 feet wide and had a draught of seven feet. It made regular semi-weekly sailings between New Orleans, Mobile and Pensacola, Fla.

SEVEN MISSING AFTER TWO BOATS CRASH UPON LAKE

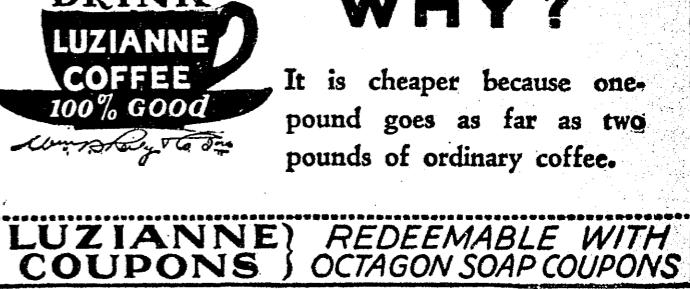

NEW ORLEANS, Aug. 7 (P)—The Orleans Parish School board last night

announced its tentative budget for the fiscal year 1932-33 as \$4,593,000, with salary reductions ranging from 14 to 26 per cent of last year. The board estimated that the economy slashed would aggregate a total saving of \$1,020,632, which represents the net loss in the board's operating income since last year. No school departments will be eliminated and all teachers and principals will be retained.

Troopers had been unable two hours after the accident to learn how it happened. The tug had cleared only a short time before from the Sylvan Beach dock. Captain L. A. Whitey,

of Sylvan Beach had charge of the Agnes. The name of the captain of

the tug is not known here.

One Smoker tells ANOTHER

WHEREVER you buy CHESTERFIELDS on land or on sea, you get them just as fresh as if you came by our factory door—have one if you will. I think you will find that they are milder—that they taste better.

I have noticed that CHESTERFIELDS are made right—not hard and soft; no flabby cigarettes—each one well-filled. They are the right size to smoke cool and comfortable.

BOLIVIAN FLIERS CAPTURED, THEIR PLANE SHOT DOWN

(Continued from First Page)

ported to view with dissatisfaction the present trend of diplomacy in connection with the Chaco question, including Paraguay's unreserved acceptance of the Pan-American proposal for arbitration of the differences on the basis of the positions held by the armed forces of the two nations in the Chaco territory on June 1.

This group was represented as believing that even had Bolivia accepted the proposal unreservedly, it would merely mean commencing again protracted negotiations without prospect of a definite result.

Some leaders in this group had expected the Paraguayan reply to include certain reservations, which may have been erased as a result of President Jose Guggiari's conference with the United States minister shortly before the cabinet finally approved Paraguay's note.

TORCH SINGER TO SURRENDER TODAY

(Continued from First Page)

satisfied with Holman's promise to deliver his daughter into custody without further delay.

Defense attorneys appeared optimistic over the prospect of securing the privilege of bail for their client, especially since her co-defendant, Albert (Ab) Walker, 19-year-old chum of young Reynolds, was released in \$25,000 bond yesterday after habeas corpus proceedings at which the state announced it did not have evidence to support a first degree murder charge against him.

Just where Libby's effort to obtain bail would take place remained undetermined today.

Graves and Polkoff said they were prepared to file a petition for a writ of habeas corpus as soon as she is in custody, pointing out that under the law they cannot move while a defendant is still at large.

They said they did not know what judge would be asked to order the hearing. Judge A. M. Stack, who presided in superior court here last week and allowed Walker's release, will be presiding at a term of court in Wentworth, seat of Rockingham county, about 50 miles from here.

Solicitor Carlisle Higgins will also be at Wentworth to prosecute the Rockingham docket. It was Higgins who announced, after a conference with Sheriff Scott, that the available evidence was insufficient to sustain a non-bailable charge, as first degree murder ordinarily is in North Carolina.

At that time Higgins said his failure to resist bail for Walker could not be taken as any intimation of his probable attitude toward a similar petition from the widow.

Libby's attorneys pointed out they could ask for a habeas corpus writ from any superior court judge or any member of the supreme court bench.

No superior judge is in Winston-Salem at this time, but Judge Thomas Shaw and Judge Michael Schenck reside at Greensboro, about 30 miles from here, and it was regarded as within the realm of possibility that the petition might be filed before one of them.

The state law allows the petition to be filed before any qualified judge, but does not require him to hear the action. In other words, one judge may order a hearing to be held before another judge.

Mrs. Reynolds' attorneys said they desired to hold the hearing as soon as possible because of the client's condition. They described her as still suffering from the shock of her husband's death as well as being on the road to motherhood.

Reynold's death early on the morning of July 6 came a few hours after the breaking up of a birthday party at Reynolds, the family estate, at which witnesses said corn whisky and beer were served.

Coroner W. N. Dalton, after an inquiry, announced he had recorded a finding of suicide, but Sheriff Scott declared he was not satisfied and began an investigation that culminated in the holding of a formal inquest.

After examining Libby and Walker twice, and other witnesses, including guests at the party, the coroner's jury held that Reynolds came to his death from a gunshot wound inflicted by "a person or persons unknown."

The next day, Libby, sobbing and apparently almost prostrated, left for her girlhood home in Cincinnati. She went into seclusion in the suburban home of a sister, Mrs. Myron Kahn.

About two weeks ago, Sheriff Scott said he was informed the singer was "missing" from the Kahn home.

When she and Walker were indicted on a first degree murder charge Thursday, the officer immediately began an attempt to locate her and take her in custody, but his efforts were in vain.

Holman came to Winston-Salem with the hope of arranging for bail without the necessity of her being arrested, but found such a course was impossible, under the laws of the state. He engaged Polkoff and Graves, who shortly announced Libby would return within a few days, and face the charge pending against her.

WHY?

It is cheaper because one-pound goes as far as two pounds of ordinary coffee.

LUZIANN REDEEMABLE WITH COUPONS OCTAGON SOAP COUPONS

BELIEVE NATCHEZ COTTON IS ACTIVE KIDNAPED BANKER MURDER IS SOLVED DURING PAST WEEK FOUND UPON LAWN

(Continued from First Page)

Police search in the history of this section.

Sheriff Roberts refused to elaborate on his conversation with the finger print expert, intimating he would issue a formal statement after receiving Chancellor's report tomorrow.

Dana and Miss Dockery, who reside in a dilapidated anti bellum mansion situated 500 yards from the Merrill home, were the first to be arrested for questioning in connection with the murder.

Officers asserted ill feeling long has existed between the couple and Miss Merrill. No formal charges have been filed, both being held for "investigation."

Dana and Miss Dockery also have claims to ancestral distinction. Miss Dockery is the daughter of Brig. Gen. T. P. Dockery of the army of the Confederate states. She is 60 years old and has acted as Dana's housekeeper.

Dana, son of Charles Backus Dana, Episcopalian minister here from 1866-73, also claims to be related to Charles Anderson Dana, former publisher of the New York Sun, and Charles Dana Gibson, the artist. He told officers he also has "rich relatives" residing in New York and Brooklyn.

Brought from his cell in the county jail this afternoon, it was difficult to picture him as leaders of the Natchez younger social set 40 years ago.

Wearing a heavy beard, his hair uncropped and garbed in dirty overalls, Dana told newspaper men of his early life here. He attended Chamberlain Hunt academy at Port Gibson, Miss., and later entered Vanderbilt university, Nashville, where he remained two years.

Also for two years he studied music in New York and bore the reputation of an accomplished pianist.

Soon after returning to Natchez he went into virtual seclusion at "Glenwood," where he has remained for the past 40 years.

He was known to his neighbors as "Wild Man," because of frequent spells when he would quit his home and roam in nearby woods clothed only in tattered sacks.

He told officers that during all the years he has lived as Miss Merrill's closest neighbor, that he had never been in her home and had not exchanged 50 words with her within the last 15 years.

FIVE PERSONS INJURED

MERIDIAN, Miss., Aug. 7 (AP)—Five persons were injured here yesterday when an automobile overturned in a ditch. Mr. and Mrs. E. C. (Continued from First Page)

walking along railroad tracks. Staggering to the home of Frank Lowe, he collapsed in the yard where he lay until found this morning.

Because of his dishevelled appearance he was mistaken for a tramp and police were summoned. At the police station he identified himself and was given medical aid. He was suffering from severe lacerations, one hand was badly smashed, and an arm dangled limply, apparently paralyzed from the tightness of the ropes which had held him.

Because of his condition, Colegrove was not questioned thoroughly by police, nor given an opportunity to view the two men being held as his suspected kidnappers, James Gammotoni, 32, and Amelio Puzzoti, 32.

Both men were arrested shortly after Colegrove's disappearance while riding in a blood-stained car which fitted the description of the one in which Colegrove was abducted. The clothing of both bore blood stains which police said, Gammotoni explained were from a rabbit they had killed and thrown into the car.

Gammotoni had lost \$500 in the failure of Colegrove's bank. Puzzoti lived with him in suburban Devereaux Heights.

A search of the men's home revealed a purse upon which Colegrove's name was stamped in gold.

Colegrove, with two other officials of his bank, is at liberty pending appeal of his conviction in connection with the institution's failure.

THREE-MONTH-OLD BABY DIES SUNDAY AFTERNOON

Alfred Matthew Vinsmeister, three-month-old son of Mr. and Mrs. William E. Vinsmeister, 2701 South Grand street, died yesterday afternoon at 2 o'clock at the residence following a brief illness.

Surviving are the parents and one brother, William. Funeral arrangements had not been completed last night.

RUSTON BOY SCOUTS ARE SPENDING WEEK AT CAMP

Twenty-five Ruston Boy Scouts and 11 "cubs," in charge of C. A. Barnett, H. T. Hubbard, O. K. Goff and W. B. Maxwell yesterday began their one-week camping period at Camp Ki-Ro-Li, succeeding a group of Bastrop, Mer Rouge and Collinston boys who spent last week at the scout camp, with Dr. N. T. Liles.

ONE CENT A DAY PAYS UP TO \$100 A MONTH

The Postal Life & Casualty Insurance Co., 4600 Dierks Building, Kansas City, Mo., is offering a new accident policy that pays up to \$100 a month for 24 months for disability and \$1,000 for death—costs less than 1¢ a day—\$3.50 a year. More than 143,000 have already bought this policy. Men, women and children eligible. Send no money. Simply send name, address, age, beneficiary's name and relationship and they will send this policy on 10 days' FREE inspection. No examination is required. This offer is limited, so write them today. Adv.

THE PEOPLE'S POWER

A group of lawyers was discussing whether judges should be appointed or elected. One of the group expressed the view they should be appointed, as they are in Canada and in England. "Then they could be selected with an eye to their fitness," said he. "We would get away from this haphazard, hit-or-miss method of putting them in office by thoughtless popular vote. Then, too, it sometimes happens—perhaps not so much in Louisiana, but it is true in other states—that among candidates for a judgeship, as among candidates for any other office, the material offered does not measure up to a standard of high quality. In a case like that, the voters have no choice. No matter which way they vote they are bound to get disappointing results."

"That may all be true," rejoined another lawyer, "but I have known judges who were appointed who utterly failed to measure up to the qualities demanded of the office. Their appointment was based on political caprice or in payment of a political debt. I have seen some sorry judges appointed. It all depends on who does the appointing and the reasons back of the appointment."

There is much to be said on both sides of the argument. But there are certain principles involved that apply to any system of selection of men for public office, whether it be judges or legislators, senators or congressmen.

No system of government can be evolved that will take the place of rock bottom integrity. Of course certain safeguards can be set up that will help, but there is no plan of operation that will take the place of conscientious devotion to duty. No human mind is capable of figuring out ways and means of preventing double crossing and hornswoggling the people that some other human being cannot find or make a hole through.

There is just one sure way that the people can get themselves a square deal from their public servants, and that is to set up a high standard of achievement and demand that the standard be rigidly observed.

There isn't an official or a politician in the United States who would dare resort to an unethical practice if he knew such action would bring down on him the condemnation of the people as a whole. An irresistible force is thought.

Let the people of a nation be overwhelmingly convinced that a certain custom must prevail and that custom will prevail. Let the people of this nation unequivocally demand of every public official a performance of honesty and decency, and that public official would no more disregard such demand than he would walk down the street without his clothes.

It is our national attitude toward conditions that makes conditions wrong. We are constantly having our attention drawn to the difference between the behavior of public officials in England and the public officials of the United States. There is a difference, a sorry, sickening difference, but the cause of the difference is not to be found in the make up of the officials of these two nations. It is to be found in the attitude of the people of England toward their public men as contrasted with the attitude of the people of the United States toward their public servants.

We are going to get exactly the kind of government we deserve, because we shall get exactly the kind of government we demand. Before we can get a better government than we now have, we shall be obliged to develop a better national thought towards government. The supreme court of the United States, entrenched as it is for life, reflects the concentrated thought of the people.

THE CASE FOR THE 20th AMENDMENT

The importance of getting the "lame duck" amendment ratified is amply illustrated by the present congressional campaign.

This fall the nation will elect a new congress. Every member of the house of representatives and a third of the members of the senate must submit their candidacies to the voters. But under the existing law, the newly-elected congress will not convene until January 3, 1934, unless a special session is called next spring.

Suppose, for the sake of argument, that some crisis were upon us demanding speedy action; and suppose that the voters emphatically disavowed the policy of the present congress and elected one of an entirely different temper. We should have to wait for more than a year before the people's will could find expression in the national capitol.

Could anything make clearer the worth of the 20th amendment?

A Chicago woman who shot her husband says that she will miss him. But she didn't at the right time.

More Truth Than Poetry

By JAMES A. MONTAGUE

A LOST CAUSE

The life of the Sultan of Sulu
Is one that I cannot condone,
He has wives by the score and each year marries more
When he ought to have one wife alone.
But his subjects are hardened by usage,
A tolerance kindly is theirs,
And they never have been very keen to butt in
On their monarch's domestic affairs.
They remark, "You but do what your ancestors did,
And why should we carp at a custom, old kid?"

But as soon as the Sultan goes modern,
And whiffs with a gusto and zest
The slim cigarette they're alarmed and upset
At a habit which comes from the West.
They're alarmed for their potentate's future,
They are worried and troubled and vexed,
And they cry in dismay: "What has got him that way,
And what will the fellow do next?
We presently all shall be sunk as a nation
And merged in an infidel civilization!"

I feel for the people of Sulu,
They're a simple and primitive folk
And they ought to succeed in their war on the weed,
Lest their country be smothered in smoke.
But I fear the result of the struggle
Will end in a different way,
For we cannot hold fast to a vanishing past,
We are destined to live in today.
"Civilization must follow the flag,"
Observes the wise Sultan, while puffing his fag.

TIP
Some stationer can make a lot of money by laying in a stock of promissory note-paper.

COMPARISON

Perhaps Mr. Mussolini wrote a play about Napoleon to show that the latter wasn't much of a dictator after all.

CHANCE FOR AN INVENTOR
The need of the hours seems to be an uncuttable payroll.
(Copyright, 1932, by the Bell Syndicate, Inc.)

Typhoid Mary

By BRUCE CATTON

To most of us, "Typhoid Mary," is just a name out of medical history. It was a little bit surprising, the other day, to read that the woman on whom a generation of medics have fastened that name is still alive, an inmate of a cottage on North Brother Island, New York city.

Typhoid Mary has been there more than 17 years. She is in perfect health and she has committed no crime, but she is under detention and she probably will be to the end of her days.

She works in the laboratories of a city hospital on the island, takes all her meals by herself in her little cottage, and while she is not strictly a prisoner she is never allowed to get very far from the watchful eye of the city health department. Now and then she is permitted to go into the city for an afternoon, but she always returns in the evening.

There is something unspeakably tragic about this woman's case. Mary Mallon—that is her real name—has the misfortune to carry the germs of typhoid fever in her system, and although she has never had the disease herself, at least 57 cases of it, several of them fatal, have been traced to her.

To permit her to have her liberty would be to loose a certain, devastating source of infection upon everyone with whom she came in contact. So she must live in a cottage on an island off Manhattan, a virtual prisoner, cut off from the freedom that makes life worth living. Was there ever a woman much more unfortunate?

This case, somehow, seems to symbolize the way in which the modern world has erected restrictions on individual liberty for the sake of the common good. Mary Mallon is the victim, not of wilful injustice, but of the new order of society which must, now and then, sacrifice one for the sake of many.

ONCE OVERS

By J. J. MUNDY

THE BIG CHANCE

Much is written and said of those who have won fame and fortune on their own energy and initiative.

Favorable circumstances—"lucky breaks" (so-called) spell success as often as otherwise.

A noted architect endeavored to get out of the employ class by landing the contract for a large structure.

Vainly he tried to confer with the man who awarded the contract.

He was at a railroad station and the man he desired to see had been disappointed regarding a reservation.

The young architect heard him debating with the reservation agent.

He offered to share his room with the man, who accepted it.

The contract was landed and the architect started on a successful career.

He got the lucky break, could deliver the goods and did successfully.

Perhaps you are waiting for a "lucky break."

Suppose you should get it—could you make good?

Are you waiting for an opening when you are not fully prepared for it?

The big chance would be worth nothing to you if you are not ready for it.

How well are you prepared for a big chance?

(Copyright, 1932, King Features Syndicate, Inc.)

BARBS

The 1915 styles of peg-top pants and button shoes are coming back this fall, the clothing designers say. Bringing some of the 1915 business along with them, we hope.

A bill proposed in Pennsylvania would restrict the size and load of trucks. Thus helping both the taxpayer and motorist to get ahead, we suppose.

An eastern cutlery firm intends to bring out a pocket knife with a brief history of George Washington inscribed on the handle. Enabling our schoolboys to sharpen their wits and pencils at the same time.

Detroit man recently slept 36 hours without even turning over. Then the usher awoke him gently with the information that the show was over.

Holding the breath is a beneficial exercise, a physician says. Especially for crooners and saxophone players.

A town in Tennessee made a bonfire of all the bathing suits owned by its inhabitants. We understand the blaze was visible for several feet.

Oversleep is as harmful as overwork, a lecturer on health tells us. But he might have added, deaths from either have been very rare of late.

Lights of New York

By GILBERT SWAN

NEW YORK.—Tin Pan Alley's latest blues are for it.

A dirge-like melancholy undertones such sounds are steep from that colorfully named Manhattan area where the popular music of a generation has been turned out in little cubicles called professional rooms. Something closely resembled a swan song is now in the process of composition.

As autumn approaches, it becomes evident that there is practically nothing left to write for, save the radio. Sheet music sales have gone as flat as a tyro's times. Theme songs for the films are museum pieces. Phonograph discs, once a healthy royalty source, have felt the competition of the broadcasters.

Composers and authors find they cannot live by special permission of the copyright owners. Such negotiations as have been attempted indicate that radio will pool \$1,500,000 for songsmiths' royalties. Which is viewed as quite inadequate. And so Tin Pan Alley fast loses its old identity—and wonders about tomorrow!

Typical of the change is the old Leo Feist song mill in Fortieth street, No echoes of thumping pianos have trickled through the windows in many a month. Today the sons of the late song-hit pioneer operate an advertising agency in the old offices.

In the last years of Feist's life few in the Broadway belt, or elsewhere, were aware that a nation danced to rhythms passed upon by a hopeless cripple propped in a wheel chair in his Westchester mansion. Paralyzed by a stroke, the man who set millions of feet in motion could not move his own. To his bedside came a daily retinue of pianists and scragglers—for his mind and judgment remained shrewd and alert.

Songs Made to Order
The old Charles K. Harris offices were for years the Tin Pan Alley landmark. On the wall was framed the first of the alley's aspects. It was a shingle reading: "Charles K. Harris, banjoist and song writer—Songs written to order."

THE PEOPLE'S POWER

A group of lawyers was discussing whether judges should be appointed or elected. One of the group expressed the view they should be appointed, as they are in Canada and in England. "Then they could be selected with an eye to their fitness," said he. "We would get away from this haphazard, hit-or-miss method of putting them in office by thoughtless popular vote. Then, too, it sometimes happens—perhaps not so much in Louisiana, but it is true in other states—that among candidates for a judgeship, as among candidates for any other office, the material offered does not measure up to a standard of high quality. In a case like that, the voters have no choice. No matter which way they vote they are bound to get disappointing results."

"That may all be true," rejoined another lawyer, "but I have known judges who were appointed who utterly failed to measure up to the qualities demanded of the office. Their appointment was based on political caprice or in payment of a political debt. I have seen some sorry judges appointed. It all depends on who does the appointing and the reasons back of the appointment."

There is much to be said on both sides of the argument. But there are certain principles involved that apply to any system of selection of men for public office, whether it be judges or legislators, senators or congressmen.

No system of government can be evolved that will take the place of rock bottom integrity. Of course certain safeguards can be set up that will help, but there is no plan of operation that will take the place of conscientious devotion to duty. No human mind is capable of figuring out ways and means of preventing double crossing and hornswogging the people that some other human being cannot find or make a hole through.

There is just one sure way that the people can get themselves a square deal from their public servants, and that is to set up a high standard of achievement and demand that the standard be rigidly observed.

There isn't an official or a politician in the United States who would dare resort to an unethical practice if he knew such action would bring down on him the condemnation of the people as a whole. An irresistible force is thought.

Let the people of a nation be overwhelmingly convinced that a certain custom must prevail and that custom will prevail. Let the people of this nation unequivocally demand of every public official a performance of honesty and decency, and that public official would no more disregard such demand than he would walk down the street without his clothes.

It is our national attitude toward conditions that makes conditions wrong. We are constantly having our attention drawn to the difference between the behavior of public officials in England and the public officials of the United States. There is a difference, a sorry, sickening difference, but the cause of the difference is not to be found in the make up of the officials of these two nations. It is to be found in the attitude of the people of England toward their public men as contrasted with the attitude of the people of the United States toward their public servants.

We are going to get exactly the kind of government we deserve, because we shall get exactly the kind of government we demand. Before we can get a better government than we now have, we shall be obliged to develop a better national thought towards government. The supreme court of the United States, entrenched as it is for life, reflects the concentrated thought of the people.

THE CASE FOR THE 20th AMENDMENT

The importance of getting the "lame duck" amendment ratified is amply illustrated by the present congressional campaign.

This fall the nation will elect a new congress. Every member of the house of representatives and a third of the members of the senate must submit their candidacies to the voters. But under the existing law, the newly-elected congress will not convene until January 3, 1934, unless a special session is called next spring.

Suppose, for the sake of argument, that some crisis were upon us demanding speedy action; and suppose that the voters emphatically disavowed the policy of the present congress and elected one of an entirely different temper. We should have to wait for more than a year before the people's will could find expression in the national capitol.

Could anything make clearer the worth of the 20th amendment?

A Chicago woman who shot her husband says that she will miss him. But she didn't at the right time.

More Truth Than Poetry

By JAMES A. MONTAGUE

A LOST CAUSE

The life of the Sultan of Sulu
Is one that I cannot condone,
He has wives by the score and each year marries more
When he ought to have one wife alone.
But his subjects are hardened by usage,
A tolerance kindly is theirs,
And they never have been very keen to butt in
On their monarch's domestic affairs.
They remark, "You but do what your ancestors did,
And why should we carp at a custom, old kid?"

But as soon as the Sultan goes modern,
And whiffs with a gusto and zest
The slim cigarette they're alarmed and upset
At a habit which comes from the West.
They're alarmed for their potentate's future,
They are worried and troubled and vexed,
And they cry in dismay: "What has got him that way,
And what will the fellow do next?
We presently all shall be sunk as a nation
And merged in an infidel civilization!"

I feel for the people of Sulu,
They're a simple and primitive folk
And they ought to succeed in their war on the weed,
Lest their country be smothered in smoke.
But I fear the result of the struggle
Will end in a different way,
For we cannot hold fast to a vanishing past,
We are destined to live in today.
"Civilization must follow the flag,"
Observes the wise Sultan, while puffing his fag.

TIP

Some stationer can make a lot of money by laying in a stock of promissory note-paper.

COMPARISON

Perhaps Mr. Mussolini wrote a play about Napoleon to show that the latter wasn't much of a dictator after all.

CHANCE FOR AN INVENTOR

The need of the hours seems to be an uncuttable payroll.

'Typhoid Mary'

By BRUCE CATTON

To most of us, "Typhoid Mary," is just a name out of medical history. It was a little bit surprising, the other day, to read that the woman on whom a generation of medics have fastened that name is still alive, an inmate of a cottage on North Brother Island, New York city.

Typhoid Mary has been there more than 17 years. She is in perfect health and she has committed no crime, but she is under detention and she probably will be to the end of her days.

She works in the laboratories of a city hospital on the island, takes all her meals by herself in her little cottage, and while she is not strictly a prisoner she is never allowed to get very far from the watchful eye of the city health department. Now and then she is permitted to go into the city for an afternoon, but she always returns in the evening.

There is something unspeakably tragic about this woman's case. Mary Mallon—that is her real name—has the misfortune to carry the germs of typhoid fever in her system, and although she has never had the disease herself, at least 57 cases of it, several of them fatal, have been traced to her.

To permit her to have her liberty would be to loose a certain, devastating source of infection upon everyone with whom she came in contact. So she must live in a cottage on an island off Manhattan, a virtual prisoner, cut off from the freedom that makes life worth living. Was there ever a woman half that many copies!

This case, somehow, seems to symbolize the way in which the modern world has erected restrictions on individual liberty for the sake of the common good. Mary Mallon is the victim, not of wilful injustice, but of the new order of society which must, now and then, sacrifice one for the sake of many.

ONCE OVERS

By J. J. MUNDY

THE BIG CHANCE

Much is written and said of those who have won fame and fortune on their own energy and initiative.

Favorable circumstances—"lucky breaks" (so-called) spell success as often as otherwise.

A noted architect endeavored to get out of the employ class by landing the contract for a large structure.

Vainly he tried to confer with the man who awarded the contract.

He was at a railroad station and the man he desired to see had been disappointed regarding a reservation.

The young architect heard him debating with the reservation agent.

He offered to share his room with the man, who accepted it.

The contract was landed and the architect started on a successful career.

He got the lucky break, could deliver the goods and did successfully.

Perhaps you are waiting for a "lucky break."

Suppose you should get it—could you make good?

Are you waiting for an opening when you are not fully prepared for it?

The big chance would be worth nothing to you if you are not ready for it.

How well are you prepared for a big chance?

(Copyright 1932, King Features Syndicate, Inc.)

BARBS

The 1915 styles of peg-top pants and button shoes are coming back this fall, the clothing designers say. Bringing some of the 1915 business along with them, we hope.

A bill proposed in Pennsylvania would restrict the size and load of trucks. Thus helping both the taxpayer and motorist to get ahead, we suppose.

An eastern cutlery firm intends to bring out a pocket knife with a brief history of George Washington inscribed on the handle. Enabling our schoolboys to sharpen their wits and pencils at the same time.

Detroit man recently slept 36 hours without even turning over. Then the usher awoke him gently with the information that the show was over.

Holding the breath is a beneficial exercise, a physician says. Especially for crooners and saxophone players.

A town in Tennessee made a bonfire of all the bathing suits owned by its inhabitants. We understand the blaze was visible for several feet.

Oversleep is as harmful as overwork, a lecturer on health tells us. But he might have added, deaths from either have been very rare of late.

Lights of New York

By GILBERT SWAN

NEW YORK.—Tin Pan Alley's latest blues are for itself.

A dirge-like melancholy undertones such sounds as seep from that colorfully named Manhattan area where the popular music of a generation has been turned out in little cubicles called professional rooms. Something closely resembled a swan song is now in the process of composition.

As autumn approaches, it becomes evident that there is practically nothing left to write for, save the radio. Sheet music sales have gone as flat as a tyro's tunes. Theme songs for the films are museum pieces. Photograph discs, once a healthy royalty source, have felt the competition of the broadcasters.

Composers and authors find they cannot live by special permission of the copyright owners. Such negotiations as have been attempted indicate that radio will pool \$1,500,000 for songsmiths' royalties. Which is viewed as quite inadequate. And so Tin Pan Alley fast loses its old identity—and wonders about tomorrow!

Typical of the change is the old Leo Feist song mill in Fortieth street. No echoes of thumping pianos have trickled through the windows in many a month. Today the sons of the late song-hit pioneer operate an advertising agency in the old offices.

In the last years of Feist's life few in the Broadway belt, or elsewhere, were aware that a nation danced to rhythms passed upon by a hopeless cripples propped in a wheel chair in his Westchester mansion. Paralyzed by a stroke, the man who set millions of feet in motion could not move his own. To his bedside came a daily retinue of pianists and scatsters—for his mind and judgment remained.

Songs Made to Order

The old Charles K. Harris offices were for years the Tin Pan Alley landmark. On the wall was framed the first of the alley's songs. It was a shingle reading: "Charles K. Harris, banjoist and song writer . . . Songs written to order".

Perched at his triangular lookout post, just above Broadway, Harris would watch the passing crowds—and talk and talk . . . There were those first women composers of "the alley"—Maude Nugent and Anita Owen with "Sweet Bunch of Daisies" and "Sweet Marie."

Harris would laugh when, recalling "After the Ball" he would be reminded of the old Chicago World's Fair tunes. A particular chuckle was saved for mention of Jim Thorpe's parody on the Hootchy-Kootchy, quite the shocker of the era . . . And that George Cohan kid from "the alley" turned out a tune for May Irwin . . . Fourteenth street was the alley's hub then . . . Always following the theater . . .

The old Harris piano, tucked in a corner, had keys stained like the teeth of a confirmed tobacco chewer . . . "Once had 118 songs that sold over a half million each," he told me. The biggest current hit sold just about half that many copies!

Voodoo in New York

Now that a mystery story has been written with Harlem as its background, New Yorkers wonder why no one thought of doing it before. The materials, as proved by Dr. Rudolph Fisher's "The Conjuror Man," are rich and varied. Fisher, a negro, knows that sections of Harlem have never quite outgrown voodoo and charms and potions. Drugstores still sell love philtres and display concoctions that recall witch-doctor of the jungle. Then there are the number-game men, the porters, the rent parties and all the rest.

Not long ago came revelations of Saturday night rituals in which macks and voodoo figured. Poets, musicians, novelists, artists and entertainers de luxe have been graduated from neighborhoods which still vend powdered cobwebs and snakeskin.

And in Harlem alone may be found New York's surviving late "hot spots." With Broadway reduced to one night club, the vast black belt keeps its jazz places going in the face of depression times.

BELIEVE IT OR NOT

By Ripley

EXPLANATION OF SATURDAY'S CARTOON STEAMSHIPS ARE FASTER IN COLD WATER.—Since a steamship cannot store enough fresh water within its means of condensers which are cooled by the ocean water. The condensers, to be most efficient, must be kept cool enough to allow free exhaust from the engines. Hence, when the ship is sailing through cool waters the condensers are working more perfectly than when they are being cooled by warmer tropical waters that cause slower condensation of the exhaust steam, and a back pressure on the engines. When steamers are powered by turbine engines the warmer sea waters tend to decrease the efficiency of a turbine more than that of any other type of engine.

American Track-Field Athletes Sweep Four Finals And Capture Olympic Teams' Championships

Crowd of 75,000 Spectators Thrilled by Concluding Events of Games

U. S. WOMEN BEAT CANADA

World Records Surpassed by Wide Margins as Fitting Climax of Matches

CARR TAKES 400 METERS

By Alan Gould
(Associated Press Sports Editor)

OLYMPIC STADIUM, LOS ANGELES, Aug. 7 (P)—Scattering world's records all over the premises in utmost abandon, the United States track and field athletes, in the concluding Olympic games events, thrilled a crowd of 75,000 today by sweeping four finals and clinched the team championships for men as well as women by overwhelming margins over the rest of the world.

While crack American men's quartets were pounding records to bits in the final 400 and 1600 meter relays, the U. S. A. women romped off to a close victory over Canada in the 400-meter relay and Jean Shiley of Philadelphia won the high jump for girls, administering the first defeat of the games to the sensational Texas girl, Baba Didrikson.

World records were surpassed by wide margins in each of these events as a fitting climax to eight days of the most dazzling track and field performances ever witnessed.

Including the marathon, 23 track and field events for men saw new Olympic records established in no less than 19, while the women broke world records in all six of their contests.

All told, for both men and women, 24 new Olympic marks were put up on the books, including 13 new world records.

Three other world records were equalled.

The United States emerged with a total of 11 first places out of the 23 track and field features for the best showing made by an American team since the 1912 Olympics. The American girls won five of the six sprinting events. The other being captured for Poland by Tella Walsh of Cleveland, Ohio.

The stadium's events today were brought to a spectacular climax by the final appearance of Bill Carr, American world champion at 400 meters, who raced his anchor lap in 46.2 seconds to help the United States 1600 meter team set a new world record of 3 minutes 8.2 seconds and beat the British quartet by 29 yards. Carr's time with a running start, equalled the mark he made in winning the 400-meter final Friday, his teammates, Ivan Fuqua, Ed Abiowich and Karl Warner, were timed in 47.1, 47.4 and 47.3 seconds, respectively.

The time wiped out the same team's previous world mark. 3:18.6 made yesterday in the trials. The old Olympic record of 3:14.2 was completely obliterated.

Scarcely less sensational was the triumph of the American sprint quartet in racing to victory in the 400-meter relay final in 40 seconds flat, also wiping out all previous records.

Bob Kiesel, Emmett Toppino, Hector Dyer and Frank Wykoff running at that order, led all the way to beat the crack German team by 10 yards and erase their own world record of 40.6 made in Saturday's trials. A full second was clipped in two days by this team from the old Olympic record, also held by the U. S. A.

OLYMPIC STADIUM, LOS ANGELES, Aug. 7 (P)—The United States girls' 400-meter relay team won a close race from Canada in the Olympic final first of the features on today's track and field program, setting a new world record of 47 seconds flat.

The former record of 48.4 seconds was made in 1928 by the Canadian Olympic team.

Wilhelmina von Bremen of San Francisco, running anchor for the American girls, took the baton from Annette Rogers almost on even terms with Hilda Strike, last Canadian runner, and broke the tape a yard in front after an exciting 100 meters. Miss Strike broke her stride in the last 10 meters after the two girls had raced most of the stretch shoulder to shoulder.

Miss Rogers, Chicago girl, within ten minutes after running on the record relay team, went over and cleared the high jump bar at five feet, 1 inch, breaking the Olympic record.

She was quickly followed at this height by Baba Didrikson, Texas girl, trying for her third Olympic championship.

The flashy United States men's 400-meter relay quartet, consisting of Bob Kiesel, Emmett Toppino, Hector Dyer and Frank Wykoff, scored a smashing victory over five rivals in the final. They led the German team by fully ten yards, with Italy, Canada and Japan in a close race for third in the stretch.

No semi-finals were run.

The Americans were clocked in 40 seconds flat, shattering all world records, including their own mark of 40.6 seconds made in the trials yesterday.

It was a full second faster than the previous Olympic record, set in 1924 by the U. S. A., and equalled in 1928 by another American team on which Wykoff also ran.

Kiesel was off to a great start and outdistanced Kornig, the German star, on the first 100 meters. The southern

JAPAN GAINS IN SWIMMING EVENTS

Grammar School Lad First in 100-Meter Race; Holland Girl Victor

By Paul Zimmerman,
(Associated Press Sports Writer.)

OLYMPIC SWIMMING STADIUM, LOS ANGELES, Aug. 7 (P)—The hopes of Japan in the aquatic events of the fifteenth Olympiad advanced today as Yasuji Miyazaki, a grammar school boy, sped to victory in the 100-meter free style finals for men.

The seventeen-year-old sprint swimmer won by an arm's length over his teammate, Tatsugo Kawaishi, in 58.2 seconds, two tenths of a second slower than the Olympic record held yesterday in the semi-finals.

The record breaking of the second day of the international water tests was left, however, to the feminine competitors, as Williminkie Den Ouden, sturdy Dutch girl, boosted the 100-meter free style record for women for the fourth time in two days, to 1:07.6 seconds in the first semi-final race.

The mark also eclipsed for the fourth time the recognized world's record of 1:09.8 set by Alina Ospich, U. S. A. in 1929. Miss Den Ouden, in winning her race, gave stern promise to Helene Madison, America's leading hope and applicant for more records than she can remember, that she will be the one to beat in tomorrow's finals.

Miss Madison, although not pressed as was the Hollander, won the second heat in 1:09.6, several meters ahead of the field.

In the first heat Margaret Cooper, Great Britain, who started the record breaking parade yesterday with a mark of 1:09, only to have Miss Madison, and then Mrs. Eleanor Gratti Sayville, of San Francisco, lower the mark in successive heats, finished fourth, thereby failing to gain a place in the finals.

Secor 1 to Miss Den Ouden was Mrs. Sayville, eight-tenths of a second behind, with Josephine McKim, U. S. A., a very close third. Neville Butt, Australia, was second in the second heat, with Jennie Maakal, a powerful swimmer from South Africa, third.

Third to the Nipponese in the men's finals of the 100 meters was Al Schwartz, United States' leading entrant, who finished more than a yard behind with Manuela Kalili, also of the United States, fourth a mere hand's length in the wake of his Chinese teammate.

American Track-Field Athletes Sweep Four Finals And Capture Olympic Teams' Championships

Crowd of 75,000 Spectators Thrilled by Concluding Events of Games

U. S. WOMEN BEAT CANADA

World Records Surpassed by Wide Margins as Fitting Climax of Matches

CARR TAKES 400 METERS

By Alan Gould

(Associated Press Sports Editor)
OLYMPIC STADIUM, LOS ANGELES, Aug. 7 (P)—Scattering world's records all over the premises in utmost abandon, the United States track and field athletes, in the concluding Olympic games events, thrilled a crowd of 75,000 today by sweeping four finals and clinched the team championships for men as well as women by overwhelming margins over the rest of the world.

While crack American men's quartets were pounding records to bits in the final 400 and 1600 meter relays, the U. S. A., women romped off to a close victory over Canada in the 400-meter relay and Jean Shiley of Philadelphia won the high jump for girls, administering the first defeat of the games to the sensational Texas girl, Babe Didrikson.

World records were surpassed by wide margins in each of these events as a fitting climax to eight days of the most dazzling track and field performances ever witnessed.

Including the marathon, 23 track and field events for men saw new Olympic records established in no less than 19, while the women broke world records in all six of their contests.

All told, for both men and women, 24 new Olympic marks were put on the books, including 13 new world records.

Three other world records were equalled.

The United States emerged with a total of 11 first places out of the 23 track and field features for the best showing made by an American team since the 1912 Olympics. The American girls won five of the six feminine events. The other being captured for Poland by Tella Walsh of Cleveland, Ohio.

The stadium's events today were brought to a spectacular climax by the final appearance of Bill Carr, American world champion at 400 meters, who raced his anchor lap in 46.2 seconds to help the United States 1600-meter team set a new world record of 3 minutes 8.2 seconds and beat the British quartet by 20 yards. Carr's time, with a running start, equalled the mark he made in winning the 400 meter final Friday, his teammates, Ivan Fugua, Ed Ablichow and Karl Warner, were timed in 47.1, 47.6 and 47.3 seconds, respectively.

The time wiped out the same team's previous world mark, 3:11.8 made yesterday in the trials. The old Olympic record of 3:14.2 was completely obliterated.

Scarcely less sensational was the triumph of the American sprint quartet in racing to victory in the 400-meter relay final in 40 seconds flat, also wiping out all previous records.

Bob Kiesel, Emmett Toppino, Hector Dyer and Frank Wykoff running in that order, led all the way to beat the crack German team by 10 yards and erase their own world record of 40.6 made in Saturday's trials. A full second was clipped in two days by this team from the old Olympic record, also held by the U. S. A.

OLYMPIC STADIUM, LOS ANGELES, Aug. 7 (P)—The United States girls' 400-meter relay team won a close race from Canada in the Olympic final first of the features on today's track and field program, setting a new world record of 47 seconds flat.

The former record of 48.4 seconds was made in 1928 by the Canadian Olympic team.

Wilhelmina von Bremen of San Francisco, running anchor for the American girls, took the baton from Annette Rogers almost on even terms with Hilda Strike, last Canadian runner, and broke the tape a yard in front after an exciting 100 meters. Miss Strike broke her stride in the last 10 meters after the two girls had raced most of the stretch shoulder to shoulder.

Miss Rogers, Chicago girl, within ten minutes after running on the record relay team, went over and cleared the high jump bar at five feet, 1 inch, breaking the Olympic record.

She was quickly followed at this height by Babe Didrikson, Texas girl, trying for her third Olympic championship.

The flashy United States men's 400-meter relay quartet, consisting of Bob Kiesel, Emmett Toppino, Hector Dyer and Frank Wykoff, scored a smashing victory over five rivals in the final. They led the German team by fully ten yards, with Italy, Canada and Japan in a close race for third in the stretch.

No semi-finals were run.

The Americans were clocked in 40 seconds flat, shattering all world records, including their own mark of 40.6 seconds made in the trials yesterday.

It was a full second faster than the previous Olympic record, set in 1924 by the U. S. A., and equalled in 1928 by another American team, on which Kiesel also ran.

Kiesel was off to a great start and out-sprinted Kornig, the German star, on the first 100 meters. The southern

FENCING QUEEN

JAPAN GAINS IN SWIMMING EVENTS

Grammar School Lad First in 100-Meter Race; Holland Girl Victor

By Paul Zimmerman,
(Associated Press Sports Writer)

OLYMPIC SWIMMING STADIUM, LOS ANGELES, Aug. 7 (P)—The hopes of Japan in the aquatic events of the fifteenth Olympiad advanced today as Yasuji Miyazaki, a grammar school boy, sped to victory in the 100-meter free style finals for men.

The seventeen-year-old sprint swimmer won by an arm's length over his teammate, Tatsuo Kawaiishi, in 58.2 seconds, two tenths of a second slower than the Olympic record he set yesterday in the semi-finals.

The record breaking of the second day of the international water tests was left, however, to the feminine competitors, as Willeminkte Den Ouden, sturdy Dutch girl, boosted the 100-meter free style record for women for the fourth time in two days, to 1:07.6 seconds in the first semi-final race.

The mark also eclipsed for the fourth time the recognized world's record of 1:09.8 set by Albin Ospovich, U. S. A. in 1929. Miss Den Ouden, in winning her race, gave stern promise to Helene Madison, America's leading hope and applicant for more records that she can remember, that she will be the one to beat in tomorrow's finals.

Miss Madison, although not pressed as was the Hollander, won the second heat in 1:09.6, several meters ahead of the field.

In the first heat Margaret Cooper, Great Britain, who started the record breaking parade yesterday with a mark of 1:09.1, only to have Miss Madison, and then Mrs. Eleanor Jayville of San Francisco, lower the mark in successive heats, finished fourth, thereby failing to gain a place in the finals.

GIANTS, DODGERS LEAD DURING WEEK

Phils First in Hitting, But Fifth in Averages; A's Top American

NEW YORK, Aug. 7 (P)—The Philles put on a remarkable exhibition of slugging last week but they could not even approach the records of two clubs further down in the National league standing when it came to winning games.

The New York Giants and Brooklyn Dodgers, neither of which did anything startling at bat, ran 1-2 in the major league victory columns for the seven days which ended with Saturday's games. The Giants won six out of seven games from Cincinnati and St. Louis while Brooklyn took five out of six from the somewhat stronger Chicago and Pittsburgh clubs.

The Philadelphia Athletics, American league leaders, recorded four victories to one defeat while the next four clubs in the younger circuit checked in with 4-2 records.

To get back to the slugging, the Philles hammered out 98 hits nine of them home runs, and scored 56 times to lead both leagues in all three respects. They also hit the high mark in misplays with 13 errors, and allowed their opponents 45 tallies, the league "high." As a result they got only an even break for their six games.

The next best marks were 84 hits and 46 runs by the Chicago Cubs, who faced the Phils in four slugs-fests. The high marks for the American league were the New York Yankees' 44 runs and six homers, and Detroit's 74 hits.

Defensively, no team could approach the records of the Athletics and the Cleveland Indians. They allowed their rivals only 13 runs each, Philadelphia playing five games and Cleveland six. Brooklyn and Cincinnati shared the National league low of 22 runs.

The A's also shared in the field honors with Washington dividing first place. Each team got by with only one error but the Senators played one more game than the Athletics. They struck two more "lows" with 34 hits, the bottom mark for both circuits, and 20 runs, a figure equaled only by the often-defeated Boston Red Sox and Cincinnati Reds.

Last week's major league records of games won and lost, runs, hits, errors, opponents' runs and home runs follows:

NATIONAL LEAGUE

Team	W	L	H	R	E	HR

BOXING PICKS UP WITH WEEK'S CARD

Retzlaff, Gastanaga, Leonard, Battalino, Chocolate and Dempsey Matched

NEW YORK, Aug. 7 (P)—Run-of-the-mine bouts fill the nationalistic schedule this week with most of the more important acting taking place in New York, Cincinnati and Seattle.

New York fans will have two leading shows to watch. At the Queensboro stadium Tuesday night, Charley Retzlaff, youthful Duluth heavyweight contender, will face Isadore Gastanaga, latest Spanish importation, in a ten-round battle.

At Ebbets field, Brooklyn, Wednesday night, Benny Leonard will tackle Pathé Walker, rugged Trenton, N. J., middleweight, in the most important match of his come-back campaign. The ten round semi-final will send Christopher (Batt) Battalino of Hartford, Conn., former featherweight champion, against Billy Townsend, Vancouver welterweight.

Kid Chocolate, Cuban holder of the junior lightweight title, faces Johnny Farr, Cleveland lightweight, in a ten round non-title match at Cincinnati Wednesday night, and at Seattle the same night, Jack Dempsey will resume his come-back tour with a four-round joust against Chet Shandell, 212-pounder from San Francisco.

John Welch for 11 hits which went for 20 bases. Vic Sorrell yielded 10 hits but kept them well scattered.

GIANTS, DODGERS LEAD DURING WEEK

Phils First in Hitting, But Fifth in Averages; A's Top American

NEW YORK. Aug. 7 (P)—The Phillips put on a remarkable exhibition of slugging last week but they could not even approach the records of two clubs further down in the National league standing when it came to winning games.

The New York Giants and Brooklyn Dodgers, neither of which did anything startling at bat, ran 1-2 in the major league victory columns for the seven days which ended with Saturday's games. The Giants won six out of seven games from Cincinnati and St. Louis while Brooklyn took five out of six from the somewhat stronger Chicago and Pittsburgh clubs.

The Philadelphia Athletics, American league leaders, recorded four victories to one defeat while the next four clubs in the younger circuit checked in with 4-2 records.

To get back to the slugging, the Phillips hammered out 98 hits, nine of them home runs, and scored 56 times to lead both leagues in all three respects. They also hit the high mark in misplays with 13 errors, and allowed their opponents 45 tallies, the league "high." As a result they got only an even break for their six games.

The next best marks were 84 hits and 46 runs by the Chicago Cubs, who faced the Phils in four slugs. The high marks for the American league were the New York Yankees' 44 runs and six homers, and Detroit's 74 hits.

Defensively, no team could approach the records of the Athletics and the Cleveland Indians. They allowed their rivals only 13 runs each. Philadelphia playing five games and Cleveland six. Brooklyn and Cincinnati shared the National league low of 22 runs.

The A's also shared in the field honors with Washington dividing first place. Each team got by with only one error but the Senators played one more game than the Athletics. They struck two more "lows" with 34 hits, the bottom mark for both circuits, and 20 runs, a figure equalled only by the often-defeated Boston Red Sox and Cincinnati Reds.

Last week's major league records of games won and lost, runs, hits, errors, opponents' runs and home runs follows:

NATIONAL LEAGUE						
	W	L	R	H	E	F

U. S. TRACK-FIELD TEAMS WIN FINALS

(Continued from Fifth Page.)

The women's high jump champion ship was won by Jean Shiley, American girl from Philadelphia, at a world record height as she defeated Babe Didrikson, Texas girl.

Miss Didrikson, in her first defeat, suffered from a ruling of the judges that she was "diving" over the bar.

Unofficially, the winning height for Miss Shiley was five feet, 5 1/2 inches, surpassing the former world mark of five feet, 3 1/8 inches made by Miss Gisolf of Holland in 1929.

TIGERS DEFEAT SOX

DETROIT. Aug. 7 (P)—Johnny Stone hit a home run in the seventh inning with Gehring on base today to break a deadlock and enable the Tigers to defeat the Boston Red Sox 3 to 1 in the series opener.

PLEASANT GIVES ANSWER TO LONG

Denounces the 'Senator's' Charges That He Ran State in Debt as 'Lies'

In a statement from his home in Shreveport, former Governor R. G. Pleasant this week made reply to former Governor H. P. Long's charge that Sanders, Pleasant and Parker were responsible for running the state in debt. Mr. Pleasant's statement said: "Huey Long is broadcasting his damnable lies again. In one of his recent pamphlets, he says: 'Sanders, Pleasant and Parker and governors before them issued and sold millions of dollars of state bonds; and Sanders, Pleasant and Parker and governors before them spent the money that they got from the sale of state bonds and there is little to show for it.'

"As far as the foregoing statement applies to me, it is an infernal lie. Not a single state bond was issued against the people of the state of Louisiana during my term as governor; nor were any such bonds issued by Governors Sanders or Parker that I know of. But they can answer for themselves."

Long's Dictation On Taxes

"And then Long refers to the taxes imposed by the constitution of 1921. For these taxes I am not responsible. I was a member of the 1921 constitutional convention, but I refused to vote for the adoption of the constitution and wouldn't sign it, and condemned it at the time, because of executive interference on matters of taxation contained in that constitution.

"And, if I had been a member of the legislature during Long's administration, I would have fought equally as bitterly the same kind of dictation which was exercised by him over the legislature at that time.

"Long speaks of the penitentiary department having been operated at a loss of a million dollars a year previous to his administration and that he put it on a self-supporting basis. The books will show that this department lost money during Long's administration, whereas it made approximately \$1,000,000 during my incumbency, which money was applied by me to the construction of permanent improvements, and to the payment of debts previously incurred.

"Besides, as an act of humanity, I took the stripes off the prisoners, and none of them was brutally mistreated during my time, whereas, in keeping with Long's mean, vicious satanic character, the stripes were put back on these prisoners by him, and cold-blooded, unprovoked murder occurred in the department during his regime.

Favorites Corporation Friends

"He speaks of property taxes during my administration. Such taxes have been imposed for the support of the state government ever since Louisiana was admitted into the Union. These taxes were also imposed during Long's administration, and he got far more revenues from them than I did, because the assessments during his time were greater, especially on the common people, but not on some of his special corporation friends like the Roosevelt hotel crowd and others. If Long didn't want any more property taxes, why didn't he submit constitutional amendments to have them abolished? No, he wanted to get all the money he could lay his hands on, and so let them run. Besides, I reduced the property tax rate to as low as 4 mills. Long put up a 5.75-mill rate on a much larger assessment.

"However, the biggest part of the state tax is not the property tax, but the special, extra, gluton taxes which the Long administration has put upon the people. The state ad valorem property tax amount to more than an extra \$15,000,000 a year, which did not exist during my term. And the legislature of 1932 has come along and added still more in these saving times.

"Long brags about the schools being kept open with the enormous amount of tax money forcibly extracted from the people's pockets by him. If that be an accomplishment, isn't it a far greater achievement for me to have done better on much less money?

Ran Schools, Paid Teachers

"Though I didn't have one cent of gasoline, tobacco, soft drink and other such extra nuisance tax money with which to run the schools, not a state institution of higher learning was suspended, nor do I recall that a single public school cut its term during my occupancy of the governor's chair. And the teachers were retained and paid their full salaries. They were not made the goats in the salary cut proposition like many of them are now, while the salaries of higher officials have been raised enormously and outrageously by the Long piratical crew. And many public schools were closed before the end of their scholastic years during Long's regime, notwithstanding the tens of millions of additional dollars that he has raised by slipping his hands into the pockets of the sleeping people.

"And as to our charitable institutions, although on account of the World War (which Long dodged) laboratory and other equipment, food, clothing, bedding, utensils, etc., averaged at least three times more during my term than his. I kept them going full time and full capacity, and I saw to it that these and other state institutions were operated on a business-like, economical, pay-as-you-go plan, and I left no Pleasant statewide administration debts to my successors.

"But now look at your debts which Long has forced upon you like chains of slavery, and under which you are groaning today.

"Pharaoh said to the Biblical Hebrews: 'I know I am taxing and working you to death, but look at the roads and bridges and lofty monu-

RUSTONITE TALKS AT HOMER MEETING

McKnight Discusses Taxation and Government With Claiborne League

HOMER, Aug. 7 (Special)—At the regular monthly meeting of the taxpayers league of Claiborne parish held at the court house Friday night many interested in the open forum discussions relating to taxation and its expenditure. The principal speaker being H. L. McKnight, secretary of the Chamber of Commerce of Ruston.

"The power to tax is the power to destroy—and economic independence goes hand in hand with political independence" was emphasized by Mr. McKnight. He stated that to vote right would relieve increased taxation, saying, "the expense of the government must first be reduced, pruning shears are needed to prune out unnecessary state officers, boards and committees, to help relieve the depression. The government funds are from the people through taxation and pay day must come."

He emphasized that, "citizenship was never at a premium as it is today, and to overcome these problems we must do straight thinking with independent action even with depleted resources, people in remote districts must be educated to this effect. The who and where of the taxpayers money will clear up things, vote right and if we do not we are to blame for conditions."

The necessity came for these tax associations to be formed over the state for the expenditure of these funds, the slashing of salaries, and investigations into public funds."

CLAIBORNE PLANTER HAS FIRST BALE FOR PARISH

HOMER, Aug. 7 (Special)—The first bale of 1932 cotton in Claiborne parish was brought to Homer Saturday by Lamar Coleman, prominent farmer living about eight miles southeast of here, ginned by the Caddo-DeSoto gin.

This is six consecutive years Coleman has brought the first bale of cotton.

PREACHER TALKS OF 'CHANGED LIFE'

Third Sermon in Series Is Delivered at First Christian Church Here

"When the time comes in a man's life that he fully submits himself into the hands of God, a noticeable change takes place," declared Rev. Thomas F. Jett, pastor of the First Christian church this city, Sunday morning in giving the third sermon in a series on "Introducing Men to Christ." Speaking upon the particular topic, "What Really Happens When a Man Becomes a Christian," Reverend Jett said further:

"Some time or other a man wakes up to the fact that he is wrong, that he has lived without reference to the will of his Father, God; he deliberately makes up his mind that he will come to God and ask forgiveness; he deliberately gives himself over to a friendly attitude toward that Fatherly person; by his life and expression he declares that he is trying to live on friendly terms with God; by the service of his life he begins to lead others into this friendly relationship—and we say he is converted.

"Perhaps this change in his life has been a sudden break; perhaps his former life has been openly rebellious. Then we say he has had a marvelous change. Or perhaps this change has been gradual; perhaps it has not been the changing of his direction of life, but simply his awakening, when he deliberately faces the fact, to the consciousness of a deeper meaning in the things he has been doing. Perhaps it is just a conscious and deliberate acceptance as his own of the fellowship of Christ which has always been the atmosphere of his being. In any case, it is an awakening to reality, a deliberate choosing of a life program. When a man assumes this new attitude, he is by that very fact a Christian. He has put himself into such an attitude that God is able to forgive him and take him back into approving love.

"Religious life is not something apart, but is the whole being going out to God, in accordance with the very laws by which we live our lives of humane friendship. When one becomes a Christian, when one becomes converted, when one deliberately puts himself into the presence of God with the desire to live the God life, something has really happened. If nothing really happens, if we are not different after we become Christians, if some new dynamics has not entered our lives—then all talk about religion is twaddle. Remember that Jesus said, "A man must be born again." There must be a marked difference between the Christian and the non-Christian. If, however, something has actually happened, and we have a new power and a new life, every man wants this thing we call religion. If we can show that religion makes a real difference, we have made it binding for all men."

In concluding, Reverend Jett pointed out that there is a sense of estrangement existing between the sinner and God, the one against whom the sin has been committed. "Sin breaks up the harmony of friendship between man and God. When a man turns back and asks forgiveness, this estrangement is at once removed. The way is opened up for a genuine communion. The removal of estrangement at once creates in the soul of a man a feeling of oneness with God. When this sense of estrangement fencing man about in a narrowly limited room breaks down, the individual finds himself at one with all creation. He lives in the universal life; he and man, he and nature, he and God are one."

"How about the Venetian Grill," he suggested. "The food's rather good."

It was a restaurant new to Cherry. She said eagerly that she would like to visit the Venetian Grill and the matter was settled. They crowded into the roaster and were off.

The rain, starting in the morning had continued throughout the day. Now it had settled down to a moist drizzle. The wet pavement reflected the street lights, hanging above like glamorous golden balloons in the darkness. Pearson drove carefully, thought, but they arrived without mishap.

The girl agreed. She hastened to turn the conversation into other channels. But half an hour later—in spite of repeatedly telling herself not to it was Max Pearson of whom Cherry was thinking.

What was it she had read in Max's dark eyes? Surely—oh, surely she had been mistaken!

JOBLESS RECEIVE CHEERING TIDINGS

Manual Labor Will Replace Much of Machinery on Mississippi Roads

JACKSON, Miss., Aug. 7 (P)—Mississippi's unemployed found new cause for rejoicing yesterday with announcement by E. D. Kenna, state highway director, that recent instructions from the U. S. board of public roads will permit the state highway department to use manual labor in place of machines in a large number of activities in connection with the \$4,320,000 road program to be launched in the next few days.

With the state highway commission ready to meet in Jackson Tuesday to shape final plans, Kenna said he expected the work to begin "almost right away," with certainty that September would find a large number of projects under way.

JEAN JACQUES ROUSSEAU had his idea, which was "a return to nature." He wanted us all to go back and live happily as the savages do, dancing around in our bare feet in the shady forests.

Not one of the "Utopia" makers would be willing to live, except as boss, under his own plan. If Mussolini were not the boss of fascism, he would be busy scheming to overthrow fascism and would probably succeed.

Mussolini also says that we shall always have war because "war breeds national courage," and therefore, "world peace can never be established."

That probably is what the wolves in the state of New Jersey used to think when they devoured the fat deer.

But, in New Jersey, there are plenty of deer, and not a wolf living. "Mutual Aid," as Kropotkin proved, in his admirable book, is more potent than any "survival of the fittest" rule.

At the commission meeting Tuesday, one of the matters of vital concern is whether Mississippi will be permitted to use any of its share of the funds for completing the new State Insane hospital or rebuilding the Gulfport pier means that there is little other form of public works for the use of this money, which is charged to the state's future allotment of federal highway aid, to be deducted beginning with 1933.

Cherry smiled. "I'd love to," she said. They were an attractive couple—the tall, handsome Pearson and the slender girl in black. Other diners paused to notice them.

After that first dance they returned to their table. They danced a second time and then a third. Cherry's head came just above Pearson's shoulder. She had to tilt it backward to meet his eyes. Their steps matched perfectly and the syncopation became more haunting, more hypnotic.

Pearson's arm tightened imperceptibly about the girl.

Dan and Cherry were alone in the apartment. It was nearly 11 o'clock and Cherry, in a rose negligee, was brushing her hair for the night.

"Honestly, don't you think Max is a wonder?" Dan asked. "Isn't he about the most interesting talker you've ever met?"

The girl agreed. She hastened to turn the conversation into other channels. But half an hour later—in spite of repeatedly telling herself not to it was Max Pearson of whom Cherry was thinking.

What was it she had read in Max's dark eyes? Surely—oh, surely she had been mistaken!

(To Be Continued)

BETHANY COLLEGE GROUP

VISITS CHURCH IN MONROE

An instrumental quartette known as

Bethany-Penile college Troubadors, of Bethany, Okla., and B. M. Hall, field secretary of the college, appeared in a program at the Nazarene church here yesterday morning. The Troubadours rendered musical selections and Mr. Hall gave a talk on the college.

Bethany-Penile college is a denominational school of the Nazarene church. The Troubadours and the field secretary visited Monroe while making a southern tour.

NO ARRESTS MADE YET IN SUR-WA STORE ROBBERY

Police yesterday had made no arrests in the robbery late Saturday night of Joe McClain, manager of the Sur-Wa store No. 3, from whom two negroes snatched a money bag containing between \$100 and \$150 as Mr. McClain was boarding a street car in the 2400 block of Lee avenue.

ALLEGED HEN THIEF

Oakland Williams, negro, was a prisoner at the parish jail yesterday as the result of an alleged theft of two fat hens Saturday night from Richard Coates. Deputy F. X. Cline said he arrested the negro as he was trying to sell the chickens at a local poultry house.

Cherry and Max chose a table near the wall. One look at the menu card and the girl was relieved. It was not going to be terribly expensive after all. She thought of the ruined dinner at home and sighed involuntarily. Cherry, during the past two weeks, had been learning to count her pennies.

"Steaks are the specialty," Pearson told her.

They settled on the order and Dan launched immediately into a discussion of local politics. Cherry was relieved. She did not want to talk. How could not forget the failure of her entire day's work—the labor, the expense

that cut saves an hour on train time, plus the luncheon time at Paso Robles.

MUSSOLINI THE POWERFUL, to change the subject suddenly, in an article written for the Italian encyclopedia, says the world will be ruled by fascism, strong men at the head, telling the others what is good for them, and seeing that they do it.

"Liberalism," which signifies individualism, is dead."

Mussolini has made the mould, and humanity will remain petrified forever. But some liberal individual, a Mussolini in reverse, will revive liberalism.

MUSSOLINI IS MISTAKEN, innocently enjoying himself as others have done before him. Each man of power thinks he has a "perfect system of humanity"—and sometimes dies happy in the belief that he has established it. Plato wrote his Republic, worth reading, but, not realizing, Moore planned his "Utopia," a name that has passed into the language, but not into reality. Moore passed on when his head was cut off.

JEAN JACQUES ROUSSEAU had his idea, which was "a return to nature." He wanted us all to go back and live happily as the savages do, dancing around in our bare feet in the shady forests.

Not one of the "Utopia" makers would be willing to live, except as boss, under his own plan. If Mussolini were not the boss of fascism, he would be busy scheming to overthrow fascism and would probably succeed.

Mussolini also says that we shall always have war because "war breeds national courage," and therefore, "world peace can never be established."

That probably is what the wolves in the state of New Jersey used to think when they devoured the fat deer.

But, in New Jersey, there are plenty of deer, and not a wolf living. "Mutual Aid," as Kropotkin proved, in his admirable book, is more potent than any "survival of the fittest" rule.

You can't expect everything to happen at once. We are only 12,000 years, about 250 long generations, from the stone age.

You cannot hope to do much in 12,000 years. Fortunately human history on this planet will last millions of years longer, according to astronomers, geologists, chemists and physicians. That should comfort us, plenty of time to improve.

RUSTONITE TALKS AT HOMER MEETING

McKnight Discusses Taxation and Government With Claiborne League

HOMER, Aug. 7 (Special)—At the regular monthly meeting of the tax-payers league of Claiborne parish held at the court house Friday night many interested in the open forum discussions relating to taxation and its expenditure. The principal speaker being H. L. McKnight, secretary of the Chamber of Commerce of Ruston.

"The power to tax is the power to destroy—and economic independence goes hand in hand with political independence" was emphasized by Mr. McKnight. He stated that to vote right would relieve increased taxation, saying, "the expense of the government must first be reduced, pruning shears are needed to prune out unnecessary state officers, boards and committees, to help relieve the depression. The government funds are from the people through taxation and pay day must come."

He emphasized that, "citizenship was never at a premium as it is today, and to overcome these problems we must do straight thinking with independent action even with depleted resources, people in remote districts must be educated to this effect. The who and where of the taxpayers money will clear up things, vote right and if we do not we are to blame for conditions."

The necessity came for these tax associations to be formed over the state for the expenditure of these funds, the slashing of salaries, and investigations into public funds."

The removal of estrangement at once creates in the soul of a man a feeling of oneness with God. When these sense of estrangement fencing man about in a narrowly limited ego breaks down, the individual finds himself 'at one with all creation.' He lives in the universal life; he and man, he and nature, he and God are one."

The rain, starting in the morning had continued throughout the day. Now it had settled down to a moist drizzle. The wet pavement reflected the street lights, hanging above like glamorous golden balloons in the darkness. Pearson drove carelessly. Cherry thought, but they arrived without mishap.

There are restaurants like the Venetian Grill in every large city in the country. Half a dozen musicians on a slightly raised platform at the far side of the large room were playing a fox-trot. Their music was subdued and not unpleasant. In the center of the floor a space had been cleared for dancing. The decorations of the place—painted walls, mirrors, heavy gold and blue curtains, palms in huge pottery jars, rose-shaded table lamps—were a bit garish. Still there was an air of gaiety about the place. Young couples sitting at small tables were obviously dressed in their best for "dates." There were groups of well-fed, prosperous looking business men and here and there a family party.

Cherry and Max and Dan chose a table near the wall. One look at the menu card and the girl was relieved. It was not going to be terribly expensive after all. She thought of the ruined dinner at home and sighed involuntarily. Cherry, during the past two weeks, had been learning to count her pennies.

"Steaks are the specialty," Pearson told her.
